

EVERYBODY predicts a "radio university," to spread information to the wider public which the can teach.

Spreading information is the essence of university education, only the radio is the widest spreader. The professor utters what he knows; the people listen, and some of them may remember part of it. This, it is assumed, is education.

But, if so, why bother even with radio? The encyclopedia is cheaper and more comprehensive. You can look up in it information as you need, and it to store the rest until you want it, without loading your own useless information in mental baggage.

... whole scheme is based on a complete misconception of the educational process. Information is the incidental raw material of education. The processes of knowledge are even more important than facts. It is more educative for the student to find out one thing for himself in the laboratory than for him to hear over the radio a thought which the professor has learned from others who had found out. It is better for him to search out one thing in the laboratory than to have memorized a book of a thousand things. The compiler searched out, part of investigation, the reverberating sound thinking on them—can not be "taught," but the student, in a properly equipped laboratory, can be helped and guided in his thinking. When he has found them, he is an educated man who will also, incidentally, have acquired a great deal of information. The information alone, filtered painlessly by radio, is education.

Episcopal congress at least developed a commendable tolerance of free speech. It discussed subjects, on which everybody had his own opinion. Naturally, the which the reporters thought worth printing were those discussed sex. Since the fact of mentioning the unmentionable came off, that is apparently only thing worth mentioning. At least, seems to be the rule. As news. So the unorthodox utterances on this subject are all over the place.

... prevalent moral and intellectual anarchy, manifest in these discussions, may have its roots in nothing so stagnating as a spirit of fixations and taboos which prescribe certain things to be thought and forbade even to think. Nothing deserves to be thought, nor even marriage, religion, government or property, unless it can stand investigation and the anarchists who challenge these things put us to the test, to find whether they really worth maintaining. But it is a thing which should be neither nor met except by those who intelligent and resolute enough to think. It is better to rest the taboos then recklessly throw them down and set nothing up in their place.

SCARTES, the founder of modern philosophy, was the first great intellectual anarchist. He believed nothing which I find ill capable of doubting," he said. He found, first, that he could doubt his own existence, nor he could think. From this he deduced that he could not doubt the existence of God, and from there he could not doubt the existence of other men, of the world, and of the things around him. In the end he found that he had, by demonstration, everything ordinary men take for granted. He stood just where they did, better understanding of where he was. "But," he said, "I would not recommend this sort of thought to any one who had not the determination to see it through."

... IS precaution of the great intellectual anarchist is a necessary precaution for the present moral political anarchists. It may be well, as a preliminary "clearing of the equation" for them to do everything, and to accept nothing on mere tradition or authority. But if they do that, they find themselves nowhere, floating on nothing. Better the taboos of the sort of "modernism" which has all the old standards and sets no others. The taboos are the tallization of the experience of ages. Almost inevitably, they stand. The only objection is to irrational acceptance. He who does not accept them without thinking, but who looks at himself the responsibility of thinking. And if he that, diligently and completely, will find himself, as Descartes exactly where the common man is. He will have justified in his thinking, the wisdom of the ages. He will have restored the taboos, or most of them, just as they only they will have become something much better than taboos. The church has to determine, as a practical problem, is whether it is the proper forum for process. Shall it retain its traditional position, as the guardian of taboos, or shall it undertake to their investigator, as problems?

ogers Well On Road To Recovery

LOS ANGELES, June 21.—Will Rogers, lariat spinning mayor of Hollywood, continued to improve California Lutheran hospital today, following an operation last week for gallstones.

Hospital attaches reported that comedian passed a restful night, with temperature and pulse normal today.

His humorous quips indicate that his views is not that of a "man," an attendant said.

# MOVE AGAINST U. S. NAVY SEEN

## 16 Hurt When Truck And Coupe Crash

### 7 BROUGHT TO HOSPITAL IN SANTA ANA

None Seriously Injured in Spectacular Collision at 17th Street Intersection

### WOMAN DRIVER IS CUT

### Huge Motor Vehicle Skids And Overtures, Throwing 18 Men Into Ditch

FIFTEEN MEN and one woman were injured at 6:30 last night, when a Fluor Construction company truck, loaded with workmen returning from Naples to their homes in Santa Ana, collided with the coupe driven by Miss Dora D. Stoker, 1812 Pasadena avenue, Long Beach, at the intersection of Seventeenth street and the Huntington Beach boulevard.

The accident was one of the most spectacular reported in this county in several years. The truck overturned after skidding a considerable distance and dumped its human cargo into a deep ditch at the side of the road. The coupe was said to have been knocked approximately 30 yards.

No one was seriously injured, although seven of the workmen were taken to the Santa Ana Valley hospital, where they were given medical treatment. One of the men, H. D. Eddy, 1328 Cypress street, still is in the hospital, suffering from fractured hands. The others were treated for severe cuts and bruises. They were F. Fugatt, A. Meyer, H. Hunt, G. U. Van Arman, F. Maynard and W. S. Maddox.

Eight other workmen were injured, but not seriously enough to necessitate medical treatment, it was said.

There were 18 men on the truck when it crashed into the coupe, it was said by Officer F. W. Howard, of the sheriff's office, who investigated the crash.

Miss Stoker, although badly shaken up, escaped with two small cuts on her head. Her car was badly damaged.

The Stoker car was travelling south on the Huntington Beach boulevard and the construction company's truck was being driven east on Seventeenth street.

Miss Stoker reported that she did not see the truck in time to avoid being struck by it.

A. V. Herr, 606 North Ross street, was an eye witness to the accident.

### Early Decision On Bridge Application

WASHINGTON, June 21.—A speedy reply by the board of army engineers to the city of San Francisco's application for permission to build a \$70,000,000 four-mile bridge across San Francisco bay was promised today by Gen. Herbert Denkyne, assistant chief of engineers.

General Denkyne told an official delegation from San Francisco would be placed before Gen. Edgar Jadwin, his "chief, from the widest possible view," and that the board felt the delegation is entitled to an immediate decision so the city can go ahead with definite plans.

### Bad Weather Again Delays Byrd Flight

(By United Press)  
ROOSEVELT FIELD, N. Y., June 21.—Com. Richard E. Byrd announced today that he would not start on his transatlantic flight before tomorrow night.

Byrd said weather conditions in the Atlantic from reports received at noon were so poor that he certainly would not take off late today or early in the morning, as he had considered doing.

Byrd and the three men who will accompany him were ready for the flight, however, and the tri-motored Fokker monoplane America was in shape to start at any time the weather clears. Weather conditions here were excellent.

Byrd said weather reports showed low clouds, rain and strong northeast winds over most of the route he planned to follow on his trip to Paris or beyond, making the flight impracticable for about 24 hours.

### LINDBERGH NOT RECOGNIZED IN BATTERED HAT

Drives About St. Louis in Own Car, But Escapes Crowds' Plaudits

(By United Press)  
ST. LOUIS, Mo., June 21.—Col. Charles A. Lindbergh, world famous flyer, today discovered that a hat has its valuable uses.

The hero of the New York-Paris hop found he could drive his own car in the downtown streets unharassed merely by covering his curly blonde hair under the battered grey hat he carried during his triumphant days in Europe and in the hectic homecoming.

Few recognized the tanned youth as he drove about St. Louis on his way to several conferences with friends and backers who are aiding him in deciding future plans.

Colonel Lindbergh was still undecided today where he would devote his time, although his backers intimated that the young flyer might be persuaded to head a gigantic air corporation here.

More immediate plans call for a trip to New York and Washington, probably within two weeks.

But for the present the ace has much to keep him occupied. Stacks of mail and packages still await inspection. Lindbergh began the work of opening the thousands of messages and parcels Monday.

### CONVICTS MUTINY; BLOCKADE SELVES

LANSING, Kas., June 21.—Refusing to communicate with prison authorities, nearly 300 prisoners of the Kansas state penitentiary blocked themselves in a mine of the prison today, after mutinying because a request for cigarettes was refused.

It is feared the prisoners have overpowered guards and are holding them in the shaft. A cage used to lower the men to work in this mine has been blocked by placing ties above and below it and the prisoners refuse to answer the telephone.

No word has been received from the men since shortly after noon, when the mutiny occurred.

### PAUL KELLY TESTIFIES AT DOROTHY MACKAYE'S TRIAL

(By United Press)  
LOS ANGELES, June 21.—Paul Kelly, erstwhile screen juvenile, took the witness stand today to testify against Dorothy Mackaye, the woman over whose love he staged a "bare knuckle" fight with Ray Raymond, which the state contends sent the song and dance man to his death.

The young actor was called as the closing witness for the prosecution at the "cover-up" trial of the actress, charged with plotting to conceal circumstances surrounding her husband's death, because of her love for Kelly.

Kelly was led into the courtroom by a jailer and as he walked to the witness chair he avoided the gaze of Miss Mackaye.

He testified that on the morning that he heard of Raymond's death, he went to a bank and drew out \$800 which he gave Max Wagner, his chum, to be given to Miss Mackaye as a loan.

His testimony from that point on was virtually a repetition of the testimony offered at his own trial.

## ANITA WHITNEY GIVEN PARDON BY GOVERNOR

### Social Worker Spared From Serving Term

(By United Press)  
OAKLAND, June 21.—Sixty-year-old Charlotte Anita Whitney, social worker convicted in war time as a dangerous radical, today was free to devote her declining years to her invalid mother and the flowers and books of her cottage at Carmel-by-the-Sea.

A pardon, issued last yesterday by Gov. C. C. Young spared Miss Whitney a sentence of from one to 14 years in San Quentin prison. The U. S. supreme court had upheld her conviction May 17.

"I am issuing this pardon because I do not believe that under ordinary circumstances this case ever would have been brought to trial, because the abnormal conditions attending the trial go a long way toward explaining the verdict of the jury," the governor said in announcing the pardon.

"Is Not Criminal"

"Miss Whitney, life long friend of the unfortunate, in any true sense is not a 'criminal' and to condemn her at 60 years of age to a felon's cell is an act which is absolutely unthinkable."

Miss Whitney was in seclusion today and her attorney, John Francis Neylan, who caused prominent persons throughout the country to interest themselves in her defense, was reported away from his home in San Francisco.

The welfare worker was brought to trial Jan. 20, 1920, on charges growing out of her attendance of a meeting of the Oakland branch of the Communist Labor party. She was sentenced to San Quentin February 20. The district court of appeals two years later upheld the lower court, as did the state supreme court and finally the U. S. supreme court.

Miss Whitney was known throughout California as the champion of the underdog. Defense of herself she left largely to those who voluntarily had undertaken her cause.

Fear, Hate Destructive

"Fear and hate," she said, when informed of the U. S. supreme court's ruling, "are the most destructive forces in the world today. I cannot afford either. What would life be but a craven thing if it were ruled by fear? And what a world it would be if it were entirely poisoned by hate!"

Austin Lewis, attorney for the San Francisco chapter, American Civil Liberties union, an organization which was active in the fight for clemency, said the union intends to direct its efforts toward repeal of the California criminal syndicalism law, under which Miss Whitney was convicted, using the pardon as "a very excellent foundation."

The author of the law, former State Senator William Kehoe, was a member of the Anita Whitney committee, which petitioned for executive clemency.

## 'HUMAN STATIC' DROWNS OUT C. C. JULIAN RADIO 'EXPOSE'

Founder of Oil Company Petitions Radio Body To Take Action

Founder of the Julian Petroleum corporation, whose radio address last night was cut short by mysterious "human static." The "air heckling" may become the object of an official investigation.

## STATE OF WAR NOW EXISTS IN OWENS VALLEY

Guards Armed with Machine Guns Ordered To Shoot to Kill

LOS ANGELES, June 21.—Military intervention in the Owens valley water controversy would be "unfortunate and undesirable," Gov. C. C. Young declared upon his arrival here today from Sacramento to attend among other meetings a conference with water power board officials.

"I hope very much that the city of Los Angeles and the people of Owens valley will get together in some way," he said. "I think I understand the attitude of Los Angeles in regard to their precious water supply. Also I believe I can understand how the old residents of Owens valley feel."

(By United Press)  
LOS ANGELES, June 21.—A state of virtual warfare existed in the hills bordering Owens valley today while officials here debated measures to curb dynamite attacks upon the Los Angeles aqueduct by bands of armed marauders in Inyo county.

Along the 265-mile water way stretching from the mountain lakes to the city of Los Angeles, through desert wastes and across barren foothills, powerful army flashlights gleamed last night.

Meanwhile the aqueduct guard had been strengthened by the addition of a squad of ex-service men, armed with machine guns and ordered to shoot to kill in an effort to prevent another destructive sortie against the city's main water supply, built at a cost of \$44,000,000.

Strong sentiment smoldered in the valley cities of Bishop and Independence, following the demand of the Los Angeles water and power commission that District Attorney Hession, of Inyo county, be supplanted by a special prosecutor.

"There is no just reason for me to resign and I am not going to," District Attorney Hession declared when informed that a resolution had been forwarded to Attorney General Webb. "Attorney General Webb is fully cognizant of conditions as they exist in Owens valley and I have nothing to fear from him."

"I have never refused to issue a complaint for anyone against whom Sheriff Hutchinson has been able to obtain evidence and I will prosecute any case brought before me," he said.

Meanwhile officials here announced that a number of men now under surveillance had been linked to the dynamiting of the No. Name canyon syphon on May 27, but that no action would be taken pending the decision of Attorney General Webb.

Gov. C. C. Young was expected to confer with officials here following his arrival today from Sacramento.

## Geneva Meet Is Followed By Coolidge

(By United Press)  
RAPID CITY, S. D., June 21.—President Coolidge is closely following developments at the Geneva disarmament conference and hopes for its successful conclusion, it was said in his behalf at the summer White House today.

The president realizes that considerable discussion must take place before any successful agreement can be reached and does not consider preliminary discussions can have any far reaching conclusions.

Some concrete idea may be had as to the probable outcome of the conference when a discussion of plans presented by the various nations have been completed, the president believes.

Mr. Coolidge has received, through the secretary of state, a message of good will from the conference. He has had no direct report on the proceedings at Geneva except through the newspapers.

Some concrete idea may be had as to the probable outcome of the conference when a discussion of plans presented by the various nations have been completed, the president believes.

LOS ANGELES, June 21.—The shrieking static of a "wildcat" radio station, together with a fistic encounter, mingled with charges and counter charges here today, as the Julian Petroleum corporation stock scandal reached its most hectic stage.

Highlights of the worst nightmare in the history of high finance on the Pacific coast recorded in the last 12 hours briefly are as follows:

1.—C. C. Julian, founder of the oil company, whose "radio expose" was halted last night by a broadcast of weird static from another station, forwarded a petition of 6000 names to Washington today, demanding action by the federal radio commission.

2.—De Kalb Spurlin, chairman of the Julian stockholders' committee, staged a vigorous battle with Louis Horchitz, secretary of the committee, for possession of their office and records. Spurlin pushed one side of the door, Horchitz the other. Damage: One broken door panel and Horchitz' feelings.

3.—An appropriation of \$10,000 was voted by council and approved by Mayor George Cryer, on the recommendation of City Prosecutor E. J. Lickley, for the prosecution of Julian pool "users." Lickley said he intended to file 300 criminal complaints against "some of the most prominent men in Los Angeles."

4.—Dissension has arisen in the ranks of the stockholders' committee, splitting that group wide open, the battle centering around an attempt to oust Spurlin as chairman.

5.—Frank Flint, ex-chairman of the board of directors of California Eastern oil; Harold Barneson, stockbroker, and E. A. Sheldon, former director of California Eastern, were questioned by the grand jury.

6.—Jacob Berman, alias Jack Bennett, reported flitting about Europe with \$10,000,000 in his pockets, continued to evade efforts of police to locate him.

The near fist fight between Horchitz and Spurlin occurred when Horchitz was barred from the stockholders' office by Spurlin. "Get out! You're fired!" shouted Spurlin.

"I'm not!" Horchitz roared back and the men began pushing on opposite sides of the door, which finally collapsed.

Spurlin appealed to police and later to Lickley for a complaint against Horchitz. The faction in favor of Horchitz in turn appealed for Spurlin's arrest. Lickley has summoned all committee members for a conference at his office tomorrow.

## MAITLAND OCEAN FLIGHT TO START FROM SAN FRANCISCO

(By United Press)  
SAN DIEGO, June 21.—Again youth is crying to be served—first.

With the three motors of their huge gray-black monoplane roaring their demand, Lts. Arthur Hagenberger and Lester Maitland swooped down on Rockwell field yesterday where their plane will be put in condition for an attempted non-stop flight from San Francisco to Honolulu.

"Well, since everybody seems to know about it, I guess it's not a secret," said Maitland shortly after he and Hagenberger arrived from El Paso.

## DIFFERENCES IN PROGRAMS ARE CITED

Suspect British and Japanese Proposals Effort to Weaken American Force

EXPERTS GIVE VIEWS

Suggestion for Extension Of Craft's Life Would Make Vessels Obsolete

(By United Press)  
GENEVA, June 21.—Unofficial naval experts professed to see today in the Japanese and British proposals to President Coolidge's naval limitations conference an effort to place the U. S. navy in a position of great inferiority.

Both Britain and Japan, it was explained, have built heavily since the war, whereas the United States has not. Under those conditions, the experts said, if either the vague Japanese proposals or the detailed program of Britain were adopted, the U. S. navy automatically would be made inferior.

Since the Washington conference, Japan has laid down more than 100 ships, Great Britain 38 and the United States virtually none.

Hence, Japan's insistence that any further naval limitation ratio be based on the status quo and similarly the British proposal that the life of battleships be extended to 25 years would, owing to the present age of American battleships, result in all the latter becoming obsolete before the United States would be entitled to replace them.

England, with capital ships constructed more recently, still would have a large contingent of effective battleships. Similarly the British proposals to limit submarines to 1500 tons would greatly reduce the United States larger submarine contingent while the secondary classification of submarines, limited to 600 tons, would serve no good purpose for the United States. Most of the smaller American submarines are of greater tonnage than 600.

Hugh S. Gibson, M. C. Bridge-man and Baron Tanaka, representing the United States, Britain and Japan, respectively, met as an executive committee today and appointed a technical committee to examine the programs of the three powers as presented to the conference yesterday.

On the basis of the technical committee's report to the conference, the future procedure will be organized. The credentials committee also met today. The executive committee will meet Friday to consider the technical committee's report.

## Eastern Dramatic Critic Weds Here

Ashton Stevens, well known dramatic critic, who writes for the Chicago American, was married here early today to Miss Florence Katherine Krug, Chicago actress.

Justice Kenneth Morrison performed the ceremony in his courtroom.

Stevens gave his age as 43 and the bride said she was 21. They were accompanied here by Mr. and Mrs. John Lander Stevens, of Glendale, relatives of the critic, with whom they are spending their honeymoon, it was said.

## Woman Is Shot At Negro Celebration

EL CENTRO, Calif., June 21.—Maria Hannah, alias Kennedy, negroess, is in a hospital here today, suffering from two bullet wounds received at a Colorado emancipation celebration at 101 ranch near Brawley last night. Her injury is not serious.

The sheriff's office reported that those in attendance at the celebration were inclined to hush the matter up.

It is believed a too jubilant celebrator cut loose with a revolver to provide a climax for the party.

## Held Responsible For Two Slayings

WINNIPEG, Man., June 21.—Earl M. Nelson was held responsible for the deaths of a Winnipeg woman and girl by a coroner's jury late yesterday which heard testimony of 26 witnesses in police court here. Throughout the hearing, which lasted two hours, the alleged murderer was apparently unconcerned as he sat heavily guarded within a few feet of the witness stand.

## BURMA OFFERS LEASE FREE ON RUBBER TRACTS

LONDON, June 21.—Active propaganda is being carried on by the government of Burma for opening large tracts of land for rubber growing. It is stated that capital costs are about \$250 per acre, with a production of over 300 pounds per acre, and it has been ascertained that the general expenses work out at about 20 cents per pound.

The net profits when rubber is calculated at about 75 cents per pound are over 65 per cent. The government lays stress on the advantage of "cheaper and more plentiful labor."

In a statement given about the rubber companies in Burma it has been pointed out that 7,000,000 pounds of rubber were yielded by about 25,000 acres of plantations, out of which only about 10,000 were fully bearing. The royalty is two per cent on net value and leases of land in perpetuity can be had without any premium or rent.

No land revenue is demanded for the first eight years, and thereafter only four shillings six pence per acre per year is charged up to 1938, the rate increasing with greater yield, at an interval of every 20 years, but never more than 50 per cent at a time.

Railway and steamer arrangements are being rapidly undertaken, and a note is made that there are no restrictions about importing labor from India and there is no difficulty at all about labor.

## NEW FURNITURE BIG ATTRACTION OF PARIS FAIR

PARIS, June 21.—The Paris fair opened the middle of May. This year it extended through 10 terraces, 47 halls, and along 20 cross streets of the fair ground. It showed what are called "Paris articles," the newest and best works of Paris skilled artisans.

The most interesting thing shown this year was house furniture. The decorative artists exhibited what they have done with new woods and colors in rich furniture at the grand salon on an equal footing with painters and sculptors.

The decorative furnisher showed the "coral mahogany," in which the glory and color accord with the present desire to get shine and brightness into our lives.

Every corner of every forest of the tropics, from the West Indies and South America to darkest Africa and the farthest east have been explored for new varieties of precious woods.

Virginia red maple has been worked over until it is fit for the billionaire who takes the place of old-time kings and emperors. In heavy pieces it is incrustated with mother of pearl, which suits its color and sheen.

Another exhibition shows varnished walnut knots used for reception hall furniture in a country house. Another for the same purpose uses knot wood from the other end of the earth—Amboyna in the Dutch East Indies.

A woman decorator exhibits a man's sleeping room. It is done in cochineal-colored wood. The chairs correspond and are upholstered in glistening maroon or chestnut-colored, almost claret velvet. The floor rug is "degraded," that is, in colors running imperceptibly into each other. A woman's room, quite as intense, is shown in rose-colored silk.

## U. S. SOLDIERS ARE LEARNING CHINESE

WASHINGTON, June 21.—New woes have been stored up for the doughboy officers stationed with the Fifteenth Infantry at Tientsin, China.

Now they must learn to converse in Chinese, and the difficulty of this task may readily be inferred from the fact that China has several hundred dialects and from the further knowledge that the major dialects have scores of words or characters in ordinary usage which have as many as five and six widely different meanings. Heretofore only the language officers detailed with the regiment were required to speak Chinese, but because of the disrupted political and military situation of the country the commanding officer of the outfit has found it necessary to form a language school for the benefit of all the officers under him so that their lack of knowledge of the language will not lead them into misunderstandings with the native militarists and political leaders. According to the instructions recently issued, all officers upon joining the regiment will be required to attend language classes for 10 hours a week for six weeks and after that six hours a week until the prescribed course has been completed. This preliminary course will last 12 months, but the officers must thereafter attend two or three instruction periods every week during the remainder of their tour of duty in China in order to keep their Chinese brushed up at all times.

The grapefruit probably was not used in Europe before its introduction to America by Captain Shattuck, who is said to have brought it from the far east.

Bobby Jones, golfer, has won 120 cups, but the one he prizes most is his first, only three inches high, won when he was six years old.

## Cosmetics Cost U. S. 100 Million

ATLANTIC CITY, N. J., June 21.—More than 100 million dollars is spent annually by the people of the United States for perfumes, cosmetics and toilet articles, according to a statement made by Col. Marston Taylor Bogart, professor of organic chemistry at Columbia university, speaking before a convention of toilet article manufacturers here.

Another speaker revealed that castor oil is now being used as the base of many perfumes and toilet articles.

## MILADY'S FURS MAY BE ONLY RABBIT SKINS

LONDON, June 21.—Apart from the selective breeding and naturalization of distinct species like the silver fox and the skunk, the British fur industry is constantly making experiments on the familiar rabbit, and by scientific cross-breeding it has recently become possible to produce a stock of rabbits whose pelts for commercial purposes are almost indistinguishable from those of rare fur-bearing animals.

This year, for instance, has seen the production of a new race of rabbits called provisionally "silver fox" rabbits. The pelts bear a remarkable resemblance to the genuine fur, and in time will become valuable commercially. At present these new varieties are priced at \$5 pounds apiece. There are also "sable" and "beaver" rabbits which should have a great future.

All these varieties have been obtained by careful cross-breeding between such stocks as angoras, blue beverens, chinchillas, chocolate havanas and other breeds. These experiments in rabbit breeding have been encouraged by a number of large firms of furriers, and their enterprise seems to have been justified. In a short time the old processes of treating rabbit pelt in imitation of rare furs will be supplanted by these new methods of selective breeding.

## CHINESE DANCING GIRL RULER'S AID

LONDON, June 21.—A young girl who was once a dancer on the London stage is now helping in the government of South China.

She is Sylvia Chen, daughter of Eugene Chen, the Cantonese foreign minister and probably one of the biggest personalities in the Chinese kaleidoscope at the moment. Letters received in London from China describe the part she is playing in her father's office at Hankow.

Miss Chen is really a British subject, due to the fact that she was born in Trinidad, where her father was practicing at the time as a solicitor under his real name of E. Bernard Archem. Her mother was of negro origin, and Miss Chen shows the color in her complexion.

She was sent to school in London, and was trained as a dancer in her teens. While still a child she appeared before royalty. She returned to Trinidad when her education was completed, and took part there in several stage entertainments for charity. She is an excellent dancer, and was chosen as the principal for a dancing revue produced at the Empire theater, Trinidad.

Miss Chen joined her father in China at his request about a year ago, and since settling there has been her father's right-hand "man," in his government work, and is said to have developed unexpected ability in office organization.

## Men Marooned On Barges Are Saved

HIGHLAND LIGHTS, Mass., June 21.—Two of four barges on which 16 men were marooned in an all night gale a mile and a quarter off Highland Light were taken in tow again today.

The barges broke loose yesterday while being towed from Portland, Me., to Philadelphia.

Coast guards expected tugs to tow the other two barges to Provincetown later today.

## \$25,000 Prize For Ocean Hop Posted

WASHINGTON, June 21.—Seattle, Wn., business men have contributed \$25,000 to be awarded as a prize for the first non-stop airplane flight between Seattle and Tokyo, Japan, the National Aeronautic association was advised today.

The money has been placed on deposit and the aeronautic association was advised today.

## Heavy Losses On New York Market

NEW YORK, June 21.—Stocks on the New York stock exchange, together with bonds and issues on the curb making, broke sharply in the initial dealings today.

Losses on the stock market ran up to more than two points in the more volatile issues and spread throughout the entire list. Dealings were active.

Heavy selling orders accumulated overnight due to the increase in brokerage loans, which were at the highest level in history.

## HUGE AMERICAN NAVY PROGRAM SEEN POSSIBLE

(Continued From Page 1)

The Japanese position is not yet clear.

Only Japanese refusal to accept this ratio could now block a treaty, according to some officials here. This government, it is said, will not agree to the British proposal for downward revision of capital ship specifications because France and Italy though parties to the Washington capital ship treaty are not full members of the Geneva meeting.

But officials here anticipate Great Britain may withdraw the capital ship provisions of her plan when American objections are explained.

Some difficulty may develop over the British proposal for limitation of cruisers to 7500-ton ships. The 10,000-ton type is more necessary for the United States than for Great Britain because the American navy has fewer naval bases and fuel stations.

But this is considered largely a "paper" obstacle since any Geneva 5-5-3 treaty would allow the United States 15 10,000-ton cruisers to equal England.

Long before the United States finishes those 15 permitted new cruisers, the proposed Geneva treaty would be revised or dead, according to administration circles.

The British proposal for limiting the size of submarines is said to be agreeable to this government. As stated in the American treaty memorandum, the United States is willing to outlaw submarines if all other nations agree—though this appears impossible because of French objection and non-membership in the Geneva conference.

Minor disagreement may arise over British proposals to reduce guns on aircraft carriers from eight to six-inch caliber.

## ARMS SMUGGLING PROBE CONTINUED

LOS ANGELES, June 21.—With four men under arrest and four others sought, indictments will be demanded here before the federal grand jury Friday in connection with an alleged plot to smuggle munitions to Mexican revolutionists.

The four under arrest, John B. Mannerstam, president of the Pacific Arms company of San Francisco; Guillermo Rosas Jr., local attorney; Ralph O. Saunders, truck driver, and Andrew Olson, master of the schooner Prospector, were held in lieu of bond.

Department of justice agents were secretive concerning details of the alleged plot, but it is reported that four others are being sought following the arraignment of the quartet under arrest yesterday.

## LONE BANDIT HOLDS UP MAN IN TRAFFIC

LOS ANGELES, June 21.—H. M. Binford, 1041 West Sixth street, a collector for the Safeway stores, was held up today by a lone bandit who jumped on his machine at Jefferson street and Vermont avenue when it stopped for a traffic signal.

Commanding Binford to drive on, the bandit forced him to drive to 35th street and Budlong avenue, where a Packard roadster with a second bandit was waiting. Binford was relieved of \$350 by the bandits.

The home of George Walsh, motion picture actor, at 1334 Harper avenue, was entered last night by burglars who obtained cash and jewelry valued at \$2050.

## TURKISH WOMEN TO SEEK NEW COSTUME

CONSTANTINOPLE, June 21.—A dress model is to be designed by the Union of Turkish women.

Its object is to invent a modernized national costume that shall be economical as well as elegant, and so prevent the present extravagant spending on European models.

There will be no attempt to do away with the new taste for diversity of color, and sufficient range variations will be left to satisfy individual tastes, but form and line will be made uniform.

Lately the light veil which was the last relic of such dress, has given place to a colored scarf headress imitated from Russia.

## Sheffield Will Visit President

RAPID CITY, S. D., June 21.—Ambassador James R. Sheffield, now home from Mexico City, has notified President Coolidge he will come to the Black Hills after June 30, the executive offices here announced today. Mr. Coolidge has notified Sheffield that any time which suits his convenience will be acceptable and that Mrs. Sheffield would like to have Mrs. Sheffield as a guest.

## MAN FALLS 80 FEET TO DEATH FROM DERRICK

Oke Young, 30, an employee of the California Petroleum corporation, was killed instantly at 1:10 o'clock this afternoon, when he fell 80 feet from a derrick south of Yorba Linda.

Young, who was considered one of the most careful employees of the oil company, apparently lost his balance as he started to descend. His head was crushed and his left arm broken by the fall.

The body was taken to the Seale Undertaking parlors in Fullerton, where an inquest will be conducted tomorrow afternoon at 3 o'clock by Coroner Charles D. Brown.

Young made his home in Long Beach. Relatives are said to live in Santa Barbara.

Motorists of Montreal are fined for splashing mud on pedestrians while passing through pools of water at a high rate of speed.

## Local Briefs

A tamale pie supper is to be  
 given at the church at Silver  
 Acres Thursday evening, starting  
 at 5 o'clock, for the benefit of  
 the Sunday school. It was an-  
 nounced here today.

The Kokomo-Central Indiana So-  
 ciety annual reunion and basket  
 dinner will be held Sunday, at  
 South Park, 51st and South Park  
 avenue, Los Angeles. A special  
 invitation is issued to former res-  
 idents of Howard, Cass, Miami,  
 Grant, Madison, Tipton, Clinton  
 and adjoining counties.

The vacation Bible school of  
 the Richland Avenue Methodist  
 Episcopal church opened yesterday  
 with an enrollment of nearly 30  
 boys and girls. The school will  
 continue through the summer  
 months.

E. R. Urbine, who has owned  
 and operated the meat department  
 at the Sycamore entrance of the  
 Grand Central market since the  
 opening five years ago, has just  
 completed remodeling his entire  
 establishment. The latest type of  
 two-deck display cases with tile  
 fronts have been installed. Urbine  
 explained that it is now possible  
 to display twice as much meat  
 as formerly. Recent improvements  
 include, also, the addition of a  
 room for use in rendering lard.

Pioneers of Orange county will  
 hold their annual picnic at Orange  
 County park Sunday, June 26,  
 according to an announcement made  
 today by Ed Waite. Those who  
 plan to attend the picnic are re-  
 quested to take their own lunch.  
 Coffee, sugar and cream, and  
 lemonade will be served free. Na-  
 tive Daughters of the Golden West  
 furnishing the lemonade.

The various committees on the  
 second annual K. C. picnic will be  
 held at Concordia Park in Ana-  
 heim, Sunday June 26 have com-  
 pleted arrangements, and from the  
 advance sale of tickets up to date,  
 this year's attendance should go  
 well over the 500 mark.

Richard C. Pearce, managing  
 proprietor of Hotel Rossmore, and  
 Mrs. Pearce, returned yesterday  
 from a motor trip to the middle  
 west in the course of which they  
 visited Rock Island, Ill.

A certificate of public conveni-  
 ence and necessity has been granted  
 by the railroad commission to  
 J. Martinez to operate a water  
 system for the purpose of supply-  
 ing consumers in Tract No. 538,  
 near Garden Grove, and has au-  
 thorized him to charge the follow-  
 ing rates: Monthly flat rate, house  
 on one lot \$1.75; each additional  
 house on same lot, \$1.00 and store  
 \$1.75.

Birth Rate Is  
High In Canada

OTTAWA, Canada, June 21.—A  
 recent compilation shows that the  
 birth rate in Canada is the highest  
 in the world of the white races,  
 of the nine provinces of the do-  
 minion New Brunswick is the lead-  
 er with a rate of 27.1 births per  
 thousand; Saskatchewan is next  
 with 24.7 per thousand.  
 The distinction of having the  
 lowest death rate in the world is  
 claimed by Saskatchewan with 6.8  
 per 1000 of the population.

River Uncovers  
Ancient Forest

WOODLAND, Wn., June 21.—An  
 ancient forest, dating back 3000  
 or 4000 years, has been unearthed  
 by flood waters of the Lewis river,  
 disclosing stumps of trees in per-  
 fect preservation, while growing  
 forests thrived in new soil above them.

## PROPERTIES PURCHASED BY UNION ROCK COMPANY

NEW AMERICAN  
CITIZENS TAKE  
OATHS MONDAY

Twenty-seven new American  
 citizens took the oath of allegiance  
 to the government and flag of the  
 United States late yesterday, at  
 the conclusion of naturalization  
 examinations, in Superior Judge  
 James L. Allen's court. It was one  
 of the largest classes ever received  
 in this county.

Brief patriotic exercises, con-  
 ducted by a committee of women  
 representing the Daughters of the  
 American Revolution, accompan-  
 ied the naturalization ceremony.

The 27 successful candidates,  
 survivors of a class of 35, includ-  
 ing 21 men and six women. These  
 passed the examination of their  
 knowledge of American govern-  
 ment and history, and the rigid  
 requirements of witnesses of res-  
 idence and character.

Of the remaining eight, six were  
 absent and will have another op-  
 portunity for admission with the  
 next naturalization in December. A  
 seventh would have been admitted  
 yesterday, except that his wit-  
 nesses missed by a month, require-  
 ment of having known him for five  
 years prior to his application. He  
 will be naturalized next December.  
 Only one of the 35 was definitely  
 rejected. That one had claimed  
 exemption from the draft during  
 the World war, on the ground that  
 he was an alien.

When Examiner Dodge conclu-  
 ed his quiz of the applicants Judge  
 Allen ordered the oath administered,  
 which service was performed  
 by Clerk E. R. Abbey. The new  
 citizens were sworn by groups, ac-  
 cording to nationality, each group  
 renouncing allegiance to all for-  
 eign countries and particularly the  
 country of which they had been  
 subjects.

Then Judge Allen addressed a  
 few remarks to the class, giving  
 them advice on their conduct as  
 citizens.

"You will find two good rules to  
 follow through life," said the  
 court. "One is to mind your own  
 business; the other is to work.  
 No citizen is fit to attend to the  
 business of others until he can  
 attend to his own. And work wards  
 off trouble."

The D. A. R. committee, headed  
 by Miss Edith Thatcher, Santa  
 Ana teacher who is regent of the  
 local chapter of the society, then  
 presented flags to each new citi-  
 zen and welcomed the class.

Miss Thatcher told them some-  
 thing of the creed and purpose  
 of the Daughters of the American  
 Revolution, a national society  
 made up of direct descendants of  
 those who aided, either by military  
 service or in some official capac-  
 ity, in the founding of the Ameri-  
 can government.

The prized "final papers" were  
 awarded to the following:  
 Carl E. Lindstrom, Miss Helen  
 Hansler, Louis Singer, Johan F.  
 Groothuis, Karl Augustus Lindsey,  
 (Lindsemaier), Thomas E. Quine,  
 Gottlieb Wensel, Josef Wagner,  
 Peter A. Fleischmann, Albert E.  
 Queyrel, Mrs. Elizabeth M. Quey-  
 rel, Andres J. V. Jensen, Godfrey  
 Lumsden, Catharina Poupier, Paul  
 Poupier, Karl Frisch, Remi De-  
 Jonghe, Abel Brunet, Demosthenes  
 Bazourous, Michael Schaffert,  
 Gavin H. Baxter, Edward S. Rob-  
 erts, Thomas W. Halliwell, Gustav  
 Callens, Mrs. Mildred Purdy, Mrs.  
 Frances L. McDonald and Mrs.  
 Hilda B. F. Alger.

The absent ones, whose cases  
 were continued to December, were  
 William M. Wickett, Josef Dorman,  
 Julia Keleman, Mrs. Ottillie Hen-  
 ning, Zelma Jansma, and Frank  
 L. Freeman. Leonard G. Alvy's  
 application was dismissed "without  
 prejudice" so that he could file a  
 new one and be examined next  
 December. His witnesses' knowl-  
 edge of his residence lacked one

Half Million Is Spent By  
George Rogers in  
Orange County

An announcement is made by  
 George A. Rogers, president of the  
 Union Rock company, of the pur-  
 chase at a cost of half a million  
 dollars, of the properties of the  
 Orange County Rock company, all  
 situated near the city of Orange, in  
 this county. The Union Rock com-  
 pany contemplates improving and  
 enlarging these plants, so that  
 their investment in Orange county  
 will be in excess of one million  
 dollars.

"We are adding these three  
 units to our ownership," Rogers  
 says, "in line with our general  
 policy of being prepared to give  
 direct service, either retail or  
 wholesale, to all parts of Southern  
 California. Hitherto, we have never  
 been directly interested in plants  
 or distributing stations in Orange  
 county, but we are now prepared  
 to give this important section ade-  
 quate services at all times, even  
 under maximum demand."

"The added production of these  
 plants under our ownership, gives  
 us a total potential output of ap-  
 proximately 8,000,000 tons per an-  
 num, these three units bringing the  
 total of our plants and distribut-  
 ing stations to 31. Having this  
 great potential production under  
 one management, makes it possible  
 for us to operate on an economical  
 basis, and at the same time, give  
 adequate service."

The Orange County Rock Plant  
 is situated on the Southern Pa-  
 cific railroad at McPherson, and  
 has a production capacity of ap-  
 proximately 2,000 tons per day, and  
 will be available for both carload  
 and truck shipments. The Yaeger  
 Rock plant is situated about three  
 miles south of McPherson, and has  
 a capacity of about 1,800 tons per  
 day, and will be used exclusively  
 for truckload deliveries. The Kavanagh  
 and Twoby plant is situated  
 about two miles south of Mc-  
 Pherson on the Southern Pacific  
 railroad, and will be available for  
 both carload and truck ship-  
 ments.

"This combination, under one  
 management," Rogers says, "as-  
 sures Orange county of adequate  
 service, under maximum demand,  
 as well as uniformity of material.  
 In line with our general policy,  
 the company proposes to market  
 only the most carefully prepared  
 materials, and to carefully wash all  
 sand, which we have found to be  
 safer for the important construc-  
 tion activities of Southern Cali-  
 fornia, and indeed has been found  
 by all authorities all over the  
 United States, to be the only safe  
 method to produce uniformity in  
 this important commodity. Washed  
 plaster sand, by the way, has re-  
 cently been introduced by the  
 Union Rock company, and has been  
 meeting with great success, and  
 this commodity will be manufac-  
 tured by us in Orange county. It  
 is proposed to operate all three of  
 these units, as the demand re-  
 quires, and no curtailment in em-  
 ployment of local labor is expected  
 to follow the purchase."

"Economy in management of op-  
 eration, has been the watchword of  
 the Union Rock company, and has  
 made it possible to establish prices  
 in the district it serves, which are  
 invariably lower than those in ex-  
 istence in other active centers of  
 the country, the prices being in the  
 neighborhood of 25c per ton lower  
 than those in existence in North-  
 ern California, and 50c per ton  
 lower than those in effect in many  
 of the largest Eastern and Middle  
 Western centers. The rock busi-  
 ness has developed to a point  
 where only great volume over a  
 wide area, can make a rock com-  
 pany successful, which statement  
 you will recognize as being par-  
 ticularly true, when you realize  
 that a producer cannot hope for  
 greater than a maximum of 10c per  
 ton profit on material marketed."

In line with the company's  
 policy in other communities where  
 we have been operating, we ex-  
 pect to take a keen interest in ev-  
 erything affecting the welfare and  
 growth of the city and county."

Repeatedly it has been planned  
 to raze the old prison and replace  
 it with a modern structure, but  
 the cost has been prohibitive.

A German doctor has patented a  
 clockwork apparatus to induce  
 sleep. It makes a softly humming,  
 monotonous sound for about 40 min-  
 utes, then dies away.

MISSING GIRL  
IS BELIEVED TO  
HAVE DROWNED

Mysteriously missing since last  
 Saturday afternoon, Mildred Louise  
 Pierson, 162 Larchwood Place, Riv-  
 erside, 16-year-old daughter of  
 Mrs. P. C. Pierson, is believed to  
 have been drowned in the surf at  
 Balboa, according to a report filed  
 with the sheriff's office today by  
 the Newport Beach police.

The girl was last seen in her  
 bathing suit walking towards the  
 ocean from the Balboa bath house,  
 where she is said to have changed  
 her clothes for a bathing suit. Her  
 clothes were not called for, and  
 after keeping them for a period of  
 time, J. Tudor, manager of the  
 bathhouse, turned them over to  
 the police, reporting his fears that  
 the girl may have gone in the  
 ocean and not returned.

Officers learned that the girl was  
 last seen about 5:45 p. m., Satur-  
 day.

Mrs. Pierson, called from her  
 home in Riverside, readily iden-  
 tified the clothes as those her  
 daughter wore to the beach Satur-  
 day.

All efforts to check the girl's  
 whereabouts after 5:45 p. m., Sat-  
 urday, have been futile, it was  
 said. Officers can think of no  
 theory to fit the case other than  
 that the girl went in for a swim,  
 and unnoticed went down under  
 the waves.

Miss Pierson is described as be-  
 ing five feet, five inches in height,  
 a brunette, and weighing approxi-  
 mately 130 pounds.

The dishes weren't awfully greasy. Just  
 ordinary dishes. She used plenty of mild  
 soap. Of course her hands were in the water  
 three times a day. But that scum which always  
 forms when you put soap in hard water kept  
 those hands, once white and smooth, all red  
 and rough.  
 Melo softens hard water. It prevents that  
 scum from forming. That scum is the result  
 of soap combining with the hardness in hard  
 water. But scum never forms in soft water.  
 Melo makes hard water as soft as rain water.

# Poor RED HANDS! Too much dish washing in hard water

Wavy lines + spoon = Wavy lines  
 HARD WATER PLUS MELO MAKES SOFT WATER

The dishes weren't awfully greasy. Just  
 ordinary dishes. She used plenty of mild  
 soap. Of course her hands were in the water  
 three times a day. But that scum which always  
 forms when you put soap in hard water kept  
 those hands, once white and smooth, all red  
 and rough.  
 Melo softens hard water. It prevents that  
 scum from forming. That scum is the result  
 of soap combining with the hardness in hard  
 water. But scum never forms in soft water.  
 Melo makes hard water as soft as rain water.

A teaspoonful of Melo in the dishpan and  
 no red hands.  
 Two tablespoonfuls of Melo in the bath  
 prevents the ring from forming around the  
 tub. Two tablespoonfuls in the washbubs saves  
 1/2 to 3/4 the amount of soap and makes the  
 clothes easier to wash. A pinch of Melo in  
 the wash-basin gives you completely soft  
 water for your hands and face.  
 Keep a can of Melo in the kitchen, in the  
 laundry, in the bathroom. Get it at your  
 grocer's.

**MELO**  
 A REAL  
 WATER SOFTENER  
 10 cents

### Unkept Hands Spoil Entire Effect

Every woman should have soft, white, youthful hands to complete the picture of daintiness expected of her.

White eating, dancing, playing cards, in fact, whatever you do, your hands are noticed as much as your complexion. You can't neglect them without spoiling the impression you make by being well groomed in every other detail.

The easiest way to keep your hands soft, white and firm is to massage them with the dainty lotion you can make by simply squeezing the juice of two lemons into a bottle of Orchard White, which you can get from your nearest dealer. It clears and refines the skin, making toll-worn and stained hands look like a queen's. —Adv.

## JUNIOR C. OF C. HEARS ADDRESS ON AIRPLANES

The feast of Charles Lindbergh and Clarence Chamberlin in flying across the Atlantic ocean has so fired the imaginations of young Americans that airmen are being swamped with applications. J. O. York, secretary of the Santa Ana Junior Chamber of Commerce last night. The meeting was held at Ketter's cafe. York declared that the flights made by Lindbergh and Chamberlin have done more for aviation than anything in history.

That Santa Ana is the ideal spot for an airplane factory and that Southern California will some day be the hub of the aviation industry was the prediction made by York. He stated that climatic conditions in Southern California were ideal for airplane manufacture.

In a short technical talk, York told of Lindbergh's plane. He declared that much would be accomplished in aviation in the next few years.

"The imaginations of young men and women throughout the nation have been so fired over Lindbergh's feat that many of them without flying experience are storming airmen, manufacturers and flying fields with demands to be made pilots," York said. He also stated that these same young people would nearly all attempt a California to the Hawaiian Islands flight if given the opportunity. He announced that one young flier with less than 50 hours experience in the air, recently made application in Long Beach to pilot a Honolulu bound plane.

"A flight to the Hawaiian Islands is more difficult than the trans-Atlantic flight in that if a mistake of one degree is made in the Pacific hop, the aviator would miss the islands completely," York declared.

A canvass taken at the Junior chamber of commerce meeting revealed that many of the young men of the organization were either pilots or had taken lessons in flying and that practically all members of the organization had been up in planes.

Misses Emmalene Richards, Marjorie Walton and Rose Marie Smith furnished the music program.

Robert Hockaday was appointed chairman of the next meeting. He will be assisted by a committee composed of Alfred Ault, Hugh Hicks and Ernest Winbigler. New members of the Junior chamber of commerce were also introduced last night.

## Queen Of Spain Goes To Church In Modest Dress

PARIS, June 21.—Church dresses that Worth, famous Paris dressmaker, has designed for the Queen of Spain and the ladies of her court, and which will be worn soon in Spain, fulfill all the Pope's demands for modesty.

They reach to the ankles, have long sleeves and the collars are not lower than the base of the neck. Gray, beige and black are the colors usually chosen for them. The Queen of Spain was the first one to order a church dress and other models have been made along the general lines of her majesty's.

Worth has been courtier to the Queen of Spain for many years. He was dressmaker to the Empress Eugenie, during her lifetime, and it is said that the Queen of Spain accorded him her patronage by the request of the Empress.

## Victims Of Wreck Eaten By Sharks

MANILA, June 21.—Belief that most of the 55 persons who were lost at sea when the interisland steamer *Negros* sank off Bondog Island, May 29, in a storm, were eaten by sharks, was expressed here by survivors of the wreck who were brought to Manila aboard the steamer *Masbate*.

Stories of many of the 57 survivors revealed that as many as 21 persons were seen clinging to small rafts just before the lifeboats of the *Negros* made their get-away from the scene of the wreck, and the sharks were swarming around them even then.

One survivor who was among those cast ashore near the scene of the wreck and left without food, told of eating his clothing. The raiment satisfied his hunger and left no ill effect, he said.

## Blind Men Cross France On Foot

PARIS, June 21.—Two blind men, in the hope that they will be made to see, have arrived at Lourdes, having walked from Rouen on foot across France.

They set out on February 18, and covered 900 miles in 62 days, their actual walking time was only 52 days, as they had 10 days' rest by the way.

The two pilgrims intend to accomplish the return journey also on foot.

## Special Favors Stop In Persia

TEHERAN, June 21.—The Persian government has notified the powers enjoying special jurisdiction privileges that those privileges will be abolished on May 10, 1928.

About 100 words were added to the English language during 1926.

## MUTILATED BODY OF JUNK MAN LAID TO REST; FAIL TO LOCATE HIS SLAYERS

Carl Schritz, 55, murdered junk man, is, in death, much as he was in life—alone.

In life he lived alone in a hut on the banks of the Santa Ana river, near the Orange county hospital. Alone and undefended, he was murdered. And now, in death he is still alone. No one came to mourn over his death. No relatives have been found and, so, almost alone, his last remains were taken to a cheap grave in the potters' field, yesterday, and he was placed in his last resting place. In life he sought solitude. In death he has found it.

The body, was laid at rest by Smith and Tutill, funeral directors, following an inquest held by Coroner Charles D. Brown, which, with an autopsy, revealed that the hermit, for he was nothing more, had died from gunshot wounds in the head by a party unknown.

The body of the man, missing since last Tuesday, was discovered, buried face down, in a shallow grave within 30 feet of his shack. His partner of three years, W. M. Robe, also a junk dealer, found the body while digging in the soft sandy soil.

Sheriff's officers today are working on clues which they hope will lead to the arrest of a Russian Jew known only as "Cocky," whom Sheriff Sam Jernigan believes can throw much light on the mysterious death of the little junk man. "Cocky" disappeared the same day Schritz was last seen, and when he disappeared, he carried a shotgun, it was said. It was a shotgun that caused the death of Schritz.

Since the murder, the sheriff's office, through Jernigan and Deputies Knight and Scott, have learned little regarding "Cocky." No one has been found who knows

his name, and it was said that he never allowed his name to be written. Officers learned that he paid cash for the few things he bought and never with a check.

Further investigation was made into the manner in which Robe, Schritz's partner, happened to find the body. At the inquest yesterday, he said he was sitting in his hut, near the hut of Schritz, brooding over the murder. Schritz was a friend, probably the only one he had, and his sudden disappearance was a shock to the 67-year-old man. He brooded, he worried and finally to relieve the monotony he decided to plant several flowers he had found further up the river.

He sought his spade and armed with it began looking for a soft spot in the soil to plant his flowers. "I saw a stick which had been pushed into the ground. I wondered a minute about it and then went over and pulled it up. When I did, I noticed that the ground was soft, so I decided to dig the flowers there. I began to dig, and I found Carl," the man said.

Robe is being held in the jail. His story does not ring exactly clear, officers say, and yet they feel sure he knows nothing about the murder. It was a weird discovery, made under peculiar circumstances, so Robe is being held in jail a day or so, to see what developments will take place, officers said.

Officers learned, they said, that Schritz came here from Miami, Ohio, where he was said to have a brother for whom he worked several years ago. The brother has not been located. They also learned that at one time the little junkman worked for the Southern Pacific railroad, here.

## ROTARY CLUB BREAKFASTS AT COUNTY PARK

A southern hunting breakfast, prepared by W. K. Duffy, chef of the Santa Ana Elks Club, featuring ham and eggs a la Richmond, and a well selected entertainment program, were the main attractions of the Rotary breakfast meeting held this morning at the Orange county park and attended by more than 100 Rotarians and their wives.

The breakfast meeting, held to celebrate the longest day of the year, took place of the regular Tuesday luncheon at St. Ann's Inn. Though staged by the Santa Ana Rotary club, the affair was attended by several Rotarians from other clubs in the county.

William C. Jerome, president of the Santa Ana club, presided over the gathering, and Charles V. Davis was in charge of the program. What proved a pleasant surprise to the audience was a ballet put on by Miss Claire Coutant, well known dancing instructor, comprising several numbers. Particularly well received was a solo dance by Miss Betty Bondley and a sunrise effect, featuring Miss Dorothea Keller and Miss Kathleen Cook. A touch of humor was injected in the program by Elmer Heidt who introduced a Russian dancer from Hollywood who entertained the Rotarians with his ideas of modern jazz.

## Giant Bond Issue Voted In Chicago

CHICAGO, June 21.—A civic convention hall to cost \$15,000,000 and other public improvements calling for additional bond issues of \$15,500,000 have been approved by Chicago voters.

A coalition ticket of twenty circuit judges and one superior court judge was elected by Cook county voters.

Judge Mary Bartelme, whose name was last on the ballot, placed fifth in the number of votes received. She is Chicago only woman jurist.

Among the circuit judges re-elected was Judge John R. Caverly, who sentenced Richard Loeb and Nathan Leopold, Jr., to life imprisonment for the "thrill murder" of young Bobby Franks.

Twelve of the twenty circuit judges are Republicans.

## London's Police Cost 40 Million

LONDON, June 21.—It cost 40 million dollars to run the London metropolitan police force last year, according to figures issued. Chief items of expenditure were: 23 million for pay of inspectors, sergeants and patrolmen; 8 million for pensions, and 5 million for clothing, housing and boot allowances.

## New York Banker Helps Golf Club

PARIS, June 21.—It has cost Otto H. Kahn, New York banker, \$111 a hole to play golf here. He helped found the Ormeau course outside of the city. After playing it during the week-end he gave the club \$50,000 francs.

## Chief Of Police Is Counterfeiter

CRACOW, Poland, June 21.—Stanislaus Schwarc, chief of the political police, was ordered to run down a gang of counterfeiters. He failed. Other detectives were put on the job. They reported that Schwarc was the head of the gang.

## KEEN RIVALRY WILL EXIST AT BIG AIR MEET

Announcement was made today by officials of the Hollywood Aero club and the Santa Ana Air club that Lieut. Irvine Hallman, well known sportsman and banker, has offered to donate a prize for the International Aviation Peace Jubilee to be held at the Martin Airport at Santa Ana, July 2 to 4.

In addition to this prize several other local sportsmen and numerous organizations and concerns throughout California and the east have offered to donate prizes of worth, so that it is expected by those in charge of the event that keen rivalry will be manifested by the scores of pilots competing in the meet.

That the success of the jubilee is assured is proven by the many entries so far received. These entries have been made by many cities, private flying fields and manufacturers of airplanes.

Today a letter was received from the governor of New Mexico, stating that if New Mexico sent a representative to the jubilee, it would undoubtedly be Miss Catherine Stinson. Miss Stinson is at present on the coast, where she represented New Mexico at the International Aviation conference held recently.

Miss Stinson is declared to be the world's greatest aviatrix and is a pioneer in the flying game having started her career at the age of 14 in 1923 when aviation was just in its infancy.

## Man Jailed For 'Rowing Drunk'

KNOXVILLE, Tenn., June 21.—John Hamther of this city spent a night in the county jail here charged with "rowing while drunk," the first man ever to be so charged in the history of Knox county.

Hamther was arrested while paddling up the Tennessee river, using a barrel stave for an oar.

The authority of state officers who caused his arrest was in question. The Tennessee is a navigable stream to, and beyond, Knoxville. Habeas corpus proceedings on the grounds that exclusive jurisdiction rests with the federal courts are expected.

## Sour Stomach

"Phillips Milk of Magnesia"  
Better than Soda

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor, Charles H. Phillips, since 1876.—Adv.

## Generator Staff Dines As Final Event of School Year

Establishing a precedent which is expected to be followed in succeeding years by student journalists at Polytechnic high school, members of the Generator staff banqueted at the Rose Arbor tea room on an evening late last week, and not only reviewed their achievements of the past year, but presented to the school, a bound volume of the Generator for the entire school year.

A program of toasts and speeches was given with Fred Humiston, next year's editor of the school paper, as master of ceremonies. Among the honored guests present, were J. A. Cranston, city superintendent of school; William Clayton, vice principal at Polytechnic high school; John Moffat, president-elect of the high school student body; Judson Riley, retiring president; Clarence Sprague, and Delmar Brown, commissioners of publication.

The bound copy of the Generator was presented by Miss Eleanor Turner, editor during the past year. Judson Riley accepted it for the school and turned it over to John Moffat.

Toasts, complimenting the student journalists, were given by Superintendent Cranston and Vice Principal Clayton. The work of Miss Turner during the past year was commended in a note from Principal D. K. Hammond read at the banquet. A bright outlook for the next year's work under the new editor, Fred Humiston, was forecast.

Another pleasant event at the tea room, which signalled the close of the school year, was the dinner at which Mrs. Bagley entertained for her young daughter, and to which eleven Girl Reserves were invited.

In fact the Rose Arbor has been a very popular setting for mid-June festivities, the Misses Benson and Porter having entertained a group of teachers at dinner; Mrs. Burns choosing it as the scene of a 1 o'clock luncheon for a group of eight friends, and Mrs. E. T. Mateer entertaining her bridge club there, all in the past few days.

## Household Hints

### CLEANSING SPOTS

To prevent gasoline from leaving rings when used to remove spots, add a tablespoonful of salt to every cup of gas.

### SPONGING BLACK

Dresses of black silk, georgette or satin should be sponged with hot coffee and pressed while damp on the wrong side.

### WRINKLED VELVET

Wrinkled velvet jackets or dresses can be effectively steamed by suspending from a coat hanger in the bathroom.

### HOSIERY ECONOMY

Always buy two pairs of hosiery the same shade. Two such pairs will last longer than three pairs of odd colors.

### LAUNDERING QUILTS

To wash quilts for summer use, scrub the edges on an outdoor table with soap and a brush, before putting into washing machine.

### WALL PROTECTION

Over a daybed that sits along the wall where guests will lean their heads against the paper, hang one of the Indian prints or a rug or shawl that will wash.

### WHITE KITCHEN

An all-white kitchen tints the eye and gives a kind of "snow-blindness." Paint furniture green, blue or orange and add gray curtains that catch the same color.

### CEILING DUSTER

A bag of cotton flannel, made large enough to fit over the broom, is as effective as the best long brush for cleansing ceilings.

### SUMMER SALAD

A slice of pineapple covered with cream cheese put through the potato ricer and topped by ripe olives and nuts makes a nice salad.

### PRACTICAL DESSERTS

Soft custard, made with vanilla makes an inexpensive substitute for whipped cream in fashioning desserts from sponge cake with fruit or leftover layer cake.

### CHICKEN DISHES

To make chicken salad, patties or croquettes for a large number of guests, add veal for one-fourth to one-half the meat and no one can detect the difference.

### CRISP TOAST

For the family that insists on crisp toast, cut slices of bread in evening and let harden until morning.

### TO LIGHTEN ROOM

To brighten a dark, small room, paint walls and rugless floor edge in a scheme of white and yellow.

### MILDEWED BOOKS

To prevent books at the lake or ocean from mildewing, expose to oil of lavender every so often.

### PORCH PRIVACY

If your neighbors look into your screen porch too searchingly, a thin oil of light paint over the screening will insure privacy.

### TIRED EYES

To rest eyes after a weary day, bathe them in as hot water as you can stand, then cold. Repeat and then lie down with a cold compress on them.

### MIRROR USES

A big mirror placed in a dull corner will brighten up the room and enlarge it.

Seventy million targets are smashed every hour in trapshooting tournaments in the United States.

## GOLDEN WEDDING CELEBRATED BY MR. AND MRS. I. L. SMITH

MR. AND MRS. I. L. SMITH WHO RECENTLY CELEBRATED THEIR FIFTIETH WEDDING ANNIVERSARY AT THEIR HOME, 1106 EAST THIRD STREET, WITH ALL OF THEIR NINE CHILDREN PRESENT TO ENJOY THE OCCASION WITH THEM.

Married in Elk Horn, S. Dak., on June 17, 1877, Mr. and Mrs. I. L. Smith celebrated the fiftieth anniversary of that wedding in their home at 1106 East Third street, Santa Ana, where their children and grandchildren gathered to honor them.

The chief entertainment was derived from watching the amusing wedding ceremony staged by the grandchildren, who enacted the scene of fifty years ago. Refreshments brought the happy affair to a close, and included a towering wedding cake.

Mr. and Mrs. Smith came to California twenty-five years ago,

and have spent ten years of that time in Santa Ana. They have nine children, all of whom were present at the anniversary celebration, sixteen grandchildren and two great-grandchildren.

Enjoying the day with them were Mrs. A. J. Smith and family, Mr. and Mrs. B. F. Smith and family, Mr. and Mrs. R. B. McKinney, Mr. and Mrs. O. C. Smith, Mr. and Mrs. Frank Crabtree and Mr. and Mrs. Elmer Smith, all of this city; Mr. and Mrs. F. E. Smith of Bakersfield and Mr. and Mrs. Elwood Smith of Los Angeles.

When they return from their trip, the young people will make their home in Los Angeles where Mr. Parish is purchasing agent for the Crescent Creamery company. His bride had her high school work all in Oregon, the former home of the DuFault family, but took her junior college work in Santa Ana, following it with a course in Berkeley. She has been a progressive young business woman and maintained a smart hat shop in Los Angeles.

Covers were laid for the hosts, Mr. and Mrs. Thompson, their son William, Mr. and Mrs. William McMichael and son Franklin of Tustin, Clarence Thompson and Mr. and Mrs. Walter J. Scott of Burlington, Kas., parents of Mrs. Thompson.

## Quiet Home Ceremony For Miss Du Fault And R. N. Parish

The charm of complete simplicity marked the home wedding Sunday morning of Miss Florene Madeleine Du Fault, daughter of Mr. and Mrs. E. H. Du Fault, 1028 West Fifth street, and Roswell Norman Parish, a young Canadian, whose parents, Mr. and Mrs. Herbert Parish are yet in Canada.

The Du Fault home was embowered with flowers with pale pink predominating. The ceremony took place at 9 o'clock, with only the immediate relatives present. The young people spoke their wedding vows before the Rev. Otto S. Russell, pastor of the First Baptist church. Miss Du Fault was in bridal white, her frock of semi-sports fashion, being of heavy silk.

Following the ceremony, the new Mr. and Mrs. Parish, accompanied by the group of guests, went to the Rose Arbor tea room where a wedding breakfast was served amidst charming floral appointments. Later in the day the young people left for a motor honeymoon, the bride traveling in a rose crepe de chine frock with accessories to harmonize.

When they return from their trip, the young people will make their home in Los Angeles where Mr. Parish is purchasing agent for the Crescent Creamery company. His bride had her high school work all in Oregon, the former home of the DuFault family, but took her junior college work in Santa Ana, following it with a course in Berkeley. She has been a progressive young business woman and maintained a smart hat shop in Los Angeles.

## Gave Friendly Dinner

Mr. and Mrs. Guy Thompson were dinner hosts Saturday night, to a group of friends gathered at their home, 1915 Spurgeon street, for a very enjoyable chicken dinner.

Covers were laid for the hosts, Mr. and Mrs. Thompson, their son William, Mr. and Mrs. William McMichael and son Franklin of Tustin, Clarence Thompson and Mr. and Mrs. Walter J. Scott of Burlington, Kas., parents of Mrs. Thompson.

## Master Jack Ralph Is Host to Playmates On His Birthday

Because Master Jack Ralph will reach his fourth birthday this week, the event was duly celebrated Saturday afternoon, when Mr. and Mrs. A. J. Ralph entertained a group of the little lad's playmates, at their beautiful home, 2403 Oakmont avenue.

Automobiles, scooters, small bicycles and "trikes" were in readiness for the children to use, and quieter amusement was provided in peanut hunts and other games and sports dear to childhood. Mr. Ralph entered into the spirit of the affair, and led the small folk in a succession of merry contests staged in the big garden.

Big umbrellas, swings and garden furniture made the scene a charming one, with the children adding the necessary animation. A little group of mothers sat back and enjoyed the pretty sight. They included in addition to Mrs. Ralph and her mother-in-law, Mrs. O. D. Stokes and Mrs. Henry Slater of Los Angeles; Mrs. F. C. Armin, Mrs. George Platt, Mrs. Dorothy Tubbs, Mrs. Raymond Marelle, Mrs. Peter Fluor, Mrs. Grantham, of Los Angeles, Mrs. Lyle Anderson and Mrs. Frank Seidel.

As the afternoon drew to a close, the children were called from the garden to the flower-decked house. In the dining-room, the large table had given place to a long low kindergarten table where small people could sit with comfort. There, cunning children as place cards stood at each place, and favors were bright colored horns which the youngsters blew lustily.

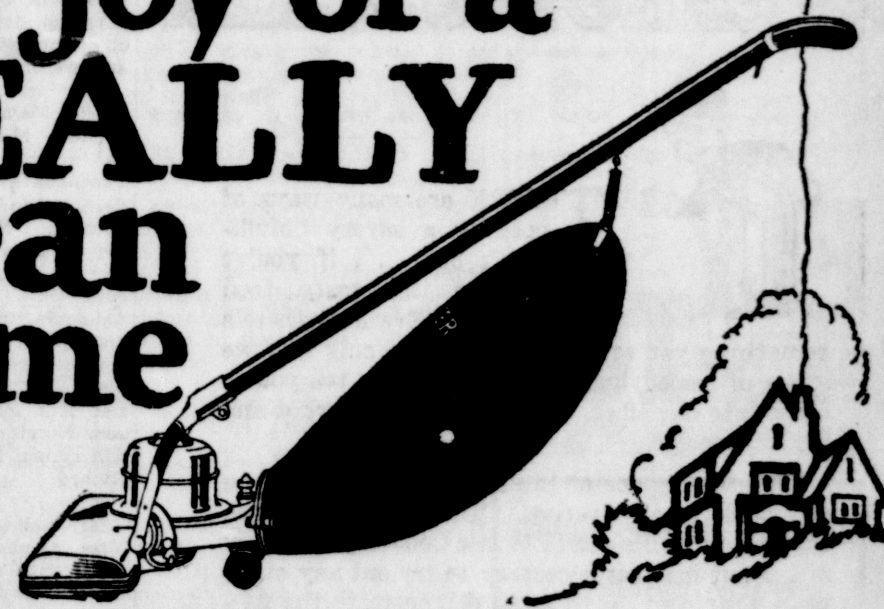

Mrs. Ralph had placed baskets of pink sweet peas on the table, and at either end was a lovely birthday cake each bearing four pink candles for Jack to blow out. Dollies with fluted frills in different colors, pretty nut cups and other appointments added to the charm of the table.

After the birthday candles were extinguished and the cakes enjoyed with ice cream, cookies, candy and other "goodies," the children gathered on the floor in a circle around Master Jack to look on with admiring eyes while he opened an array of packages and rejoiced over the varied assortment of gifts thus displayed.

The children forming the happy group included in addition to the birthday lad himself, Jack Ralph, Lyle and Ralston Anderson, Henriette and Billy Ridd, Bobby Armin, David Carmichael Jr., Henry Slater, Dorothy Tubbs, Bobby and Betty Lou Fluor, Millie-May Grantham, Raymond Ross, George Platt Jr., and Raymond Marsile Jr.

It is reported that Vierkatter, the German swimmer of the English channel, will enter the \$10,000 swimming contest on Lake George.

# the joy of a REALLY clean home

Housecleaning may not be much fun, but what a delight it is to know that from top to bottom your home is clean and bright and shining!

Don't let any shadow mar your enjoyment of the fruits of your efforts. Don't finish your labors with the feeling that rugs and carpets are not spick-and-span.

For, unless you have a Greater Hoover, you must know that your floor coverings are not as thoroughly clean as they might be. You must know that it goes far beyond all other cleaning methods in efficiency—that it cleans even 131% better in ordinary cleaning

time than any previous Hoover model!

There's a very good reason for this remarkable cleaning ability. "Positive Agitation," a revolutionary cleaning principle, creates this wholly new standard of cleanliness by beating out the heavy destructive grit that is buried in the very heart of the rug.

Let us bring a Hoover to your home and show you how "Positive Agitation" tap-taps this dangerous, rug-ruining dirt to the surface. We'll show you, too, how the Hoover dusting tools aid in countless ways in your spring cleaning. Just phone us when you are ready, and we'll clean a rug free.

Pay Only \$5.00 Down!

## GIRL RESERVES LEAVE FRIDAY FOR ASILOMAR

Representatives from the Santa Ana High School Girl Reserve club will leave Friday morning for Los Angeles for Asilomar where they will attend the annual conference of high school girl reserve clubs of the Southwest and Hawaii. The trip to Asilomar will be made in a special stage procured for the occasion by clubs in Los Angeles.

The Santa Ana girls will be accompanied by Miss Helen McPeak, local secretary. Representatives from this city will include Miss Mary Bruner, Miss Marian Bruner, Miss Helen Hell, Miss Dorothy Diehl, Miss Florence Brownridge, Miss Georgia Croft, Miss Georgia Turner, Miss Mary Wilson and Miss Joy Wilson. The Misses Wilson will not make the trip north with the other Santa Ana representatives as at present they are accompanying their parents, Mr. and Mrs. A. H. Wilson on a tour of California which will end in their 10 days' stay at Asilomar.

The conference is under the direction of Miss Emma Knauss who is nationally known for her interest in the Girl Reserve work. Her assistants will be chosen from the secretaries and advisors who will be present at the conference. Miss McPeak will head the drama department and will direct the production of a play to deal with building of the missions in California.

## REVENUES EXCEED CAPITAL EXPENSES

For the first time in seven years the 48 states, taken as a whole, finished the fiscal year ending December 31 with a surplus of receipts after meeting all expenditures, according to a recent announcement of the bureau of census. These expenditures include capital outlay for public improvements such as the construction of public buildings and highway paving.

Altogether the state governments spent \$1,000,000,000 for maintenance and operation while their combined revenue receipts exceeded \$1,650,000,000. Outlays for improvements brought the total state expenditures up to \$1,615,000,000.

Of the total tax payments in 1926, 64.4 per cent was for operation maintenance of the general department, 0.8 per cent, operation and maintenance of public service enterprises; 4.8 per cent, for interest on debts; and 30.2 per cent was for outlays for permanent improvements.

## Air Industry In Britain Has Few Fatal Accidents

LONDON, June 21—Despite the fact that 16,776 passengers and 473 tons of goods were carried, for the second consecutive year no accidents resulting in death or injury occurred on the air routes operated by British companies, according to air ministry figures. Since the commencement of the service some eight years ago, 5,271,000 miles have been flown, with only four accidents causing deaths of passengers.

## JUST ANGE

The kid sneaked out afishing and he turned his fish lines loose. He didn't catch a thing till night. And then he caught the deuce.

The inhabitants of cold countries make the darkest bread, those of the tropics the whitest. Cornstalks are an ingredient in bread in Mexico and Central America, dried fish is used in Iceland, potatoes in Ireland, three bark in Russia.

## Longest Day Of Year Finds Sun Shines 14 Hours

Well, folks—here it is, the longest day in the year. Yesterday and tomorrow are next to the longest days of the year, but today is the longest, being approximately one second longer than either.

The sun was scheduled to rise at 4:42 a. m., today, and to stay in the skies until 7:07 p. m.

Although the sun is scheduled to shine longer today than any other day in the year, the weather man predicted that clouds, with a high fog part of the day, will cut the time for old Sol's actual work considerably.

## BEISSEL SELLS HIS INTERESTS IN SHOE STORE

P. G. Beissel, pioneer Santa Ana business man and for the past 22 years identified with the shoe business in this city, today disposed of his interest in the Beissel and Schilling shoe store at 103 East Fourth street to his partner, Robert R. Schilling and M. D. Comfort. Comfort, was formerly connected with the Watkins Bootery in Santa Ana and has been identified with the shoe business for several years. The new firm is to be known as Schilling and Comfort.

Schilling has been in the shoe business in Santa Ana for the past several years. The new owners of the shoe store do not plan any immediate changes in the store, it was reported today. They are, however, laying plans for several improvements this fall. The store carries a complete line of genuine Selby's arch-preserver shoes in combination lasts for men and women, and also carries a complete line of children's shoes. The new owners are laying in a larger stock than the store has ever carried.

"We expect to be able to offer our customers greater variety and better quality than ever before," Schilling said today.

Beissel, in severing his connection with the shoe business in Santa Ana will remain here. He has become actively affiliated with the Home Mutual Building and Loan company here of which he has been president for several years.

## Illness Fatal To Captain Of Liner

SAN PEDRO, Calif., June 21—Capt. E. L. Corbin, master of the French liner Alaska and holder of the French legion of honor award, died of peritonitis at a hospital here yesterday.

The Alaska put in port here Friday and Corbin, suffering from appendicitis, was removed to a hospital for an emergency operation that failed to save his life. He is said to have received the military decoration for activity against German submarines during the World war.

The body will be shipped to France.

## Bracelet Strap

A flexible bracelet strap which transforms opera pumps into dancing slippers is very new—gold with yellow rhinestones.

Medical authorities recognize that it is a distinct advantage to health to be 10 or 20 pounds overweight between the ages of 20 and 25. Subnormal weight is more healthful later in life.

## JURY DECIDES LEVENS TOOK HIS OWN LIFE

An autopsy performed on the body of Joseph M. Levens, 71, 223 North Van Ness street yesterday, revealed that death was caused by strychnine, Coroner Charles D. Brown declared today.

Following the autopsy, a coroner's jury, yesterday afternoon at the Smith and Tutthill funeral parlors, returned a verdict to the effect that Levens had come to his death through poisoning, self-administered.

Levens died at the home of his son, William J. Levens, 617 North Parton street, Sunday night at 11 o'clock, after he had walked into the house and announced to members of the family that he had "taken these," at the same time pointing to a box he threw on the floor. The box was labelled "strychnine."

He is thought to have taken his life while despondent over ill health, Coroner Brown said. Funeral services will be held at the Smith and Tutthill chapel this afternoon. Burial will be made in Fairhaven cemetery.

## LOS ANGELES MAY MAKE OCEAN FLIGHT

WASHINGTON, June 21—A hint that the U. S. dirigible Los Angeles may make a Hawaiian trip was forthcoming yesterday from official naval circles.

Secretary of the Navy Wilbur announced some "longer trips" were planned for the craft as soon as present overhauling at Lakehurst is completed. He did not comment on a significant intimation of a colleague that there would be a mooring mast at Honolulu available for her.

## Paris Physician Rejuvenator Of Women's Faces

PARIS, June 21—In 20 minutes Dr. Raymond Passot, of Paris, claims by means of plastic surgery to make a woman look 20 years younger. Dr. Passot, who was during the war in charge of a hospital for soldiers wounded in the face, is now devoting his skill to the rejuvenation of women. In a lecture recently he said he had performed more than 2000 operations on women who wished to look younger.

"It is a mistake," he said, "to suppose that it is only the coquet who wishes to have her face 'lifted.' In Stockholm, for instance, where no woman ever powders her nose I found that women who were earning their living were eager to have the operation. They realize that in modern life the wage earner must look young." The operation is not suitable for old ladies, but is highly successful with those who are beginning to be old. Most of the patients are between 35 and 50.

For every man who comes there are 30 women. Women who want Grecian noses go to Dr. Passot. So do those who prefer a tilted nose. Victims of protruding ears have had them corrected. Dr. Passot showed many photographs of women before and after treatment. Women who felt that they had lost their powers of attraction have had the operation in the hope that they would afterward look like young girls.

## Man Held Poorer Liar Than Woman

DENVER, June 21—Women make better liars than men, declares Ruth Ridenour in an article in Liberty. "Men cannot lie," she asserts. "They should not attempt it."

"It takes a woman to lie with imagination and humor and deftness," she continues. "Men are too accurate, meticulous, and too profoundly serious in their attempt to convince. The good lie is the casual one, somewhat flippantly hung upon the conversation, as though after all, it is unimportant, believe it or not."

"Women rarely lie directly," the writer explains. They usually practice the more subtle art of prevarication. If they play bridge instead of mending socks, they are very careful to see that the traces are cleared away before their husbands arrive from the office. They do not often blunder into situations from which they must lie to escape."

## Buffalo and Elk Puzzle Cowboys

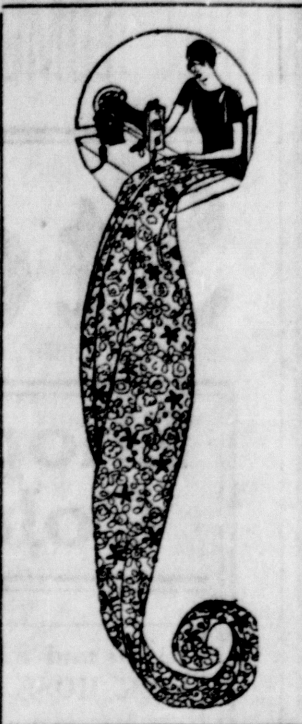

THERMOPOLIS, Wyo., June 21.—Punching buffalo and elk, tame ones at that, is a man-sized job, six cowpunchers have learned here.

They attempted to move the buffalo and elk herds from their old inclosure to a new one where grass is more plentiful and the animals refused to go. Officials in charge of the zoo are puzzling over the problem but the six cowpunchers have given it up as a bad job.

## England Expects 400,000 Visitors

LONDON, June 21—Nearly 400,000 American tourists are expected in England during the coming tourist season, according to figures compiled by the Association of British Hotels and Restaurants. This represents a 30 per cent increase over any American tourist "invasion" into Britain during the past three years.

## Silks for Summer Wear

THE PUBLIC IS CORDIALLY INVITED TO ATTEND

## AFTERNOON TEA ATTEMPT MADE IS ENJOYED IN TO BLOW SAFE LONDON CLOUDS DURING NIGHT

LONDON, June 21.—Londoners have discovered a new way of taking their tea. With the usual cream and sugar, of course, but add a few thousand feet of altitude, a mile or two of speed, and a whole valleyful of scenery, and you have the recipe for the latest afternoon tea-with-thrill. It is an "aerial tea" served high above London in one of the air liners of the Imperial Airways.

Those for whom tea drinking on solid ground is too prosaic are taken by motor car to Croydon air-drome and driven right out to the plane-dotted landing field which is the nerve center in the British Isles for a network of English, French, German and Dutch sky routes to nearly all parts of the world.

The tea guests climb into the fuselage of a huge biplane and find a long, narrow parlor car that would do justice to a crack train in the United States. There are two rows of comfortable arm-chairs separated by an aisle, up and down which the steward carries the tea and wafers from the buffet in the rear to the eighteen passengers.

One customary feature is lacking in this new "flying tea," that is, conversation, the omission of which may or may not be considered a misfortune. The roar of the three engines prevents light chat, and even forces the waiter to get his orders for tea or coffee in writing. Should tea or coffee prove insufficient for the occasion other refreshments are on the buffet as indicated by the tariff list on the back of each chair, which is headed by "Whisky, 1s 3d." The usual licensing laws which enforce prohibition in the afternoon hours on earth become null and void in the clouds above London, where as yet there are no aerial "bobbies."

## Tennis Player Is Setting Fashions

LONDON, June 21.—Stars of the tennis courts last year proved themselves successful dictators of sports fashions, and this year it promised to be the same. The "Buzanne Bandeau" and the "Helen Wills Eyeshade" now are to be overshadowed in popularity by a new fad—"Tapscott Stockings."

Miss "Billie" Tapscott, member of the South African women's tennis team, appeared on a fashionable court here recently with no stockings at all. She said she always had played in bare legs and always would, if she were permitted.

Wimbledon officials say that it's all right with them if the players wear neither stockings nor shoes, so now many of the women plan to follow the fad.

## Big Tunnel Being Bored In Scotland

FORT WILLIAM, Scotland, June 21.—A 25-mile tunnel is being driven through the northern arm of Ben Nevis, Scotland's highest mountain, to carry water from Highland mountain torrents in order to make cheap electricity for a huge aluminum factory.

Over 1800 men are employed on the job. They are scattered over a tract of 20 miles, living in camps close to their work.

The scheme is being carried out by the British Aluminum company and the tunnel will tap Loch Treig, which is 784 feet above sea level. The water thus tapped, with that of streams will drive generators of 30,000 horsepower.

## Prince Of Wales To Visit Canada

LONDON, June 21.—As at present arranged, the Prince of Wales will leave about the middle of August for his promised formal visit to Ottawa. He expects to be away about six weeks.

After the various ceremonies have been completed at Ottawa the prince will leave for his ranch near Calgary to inspect various improvements that have been carried out there since his last visit.

It is emphasized, however, that he has no present intention of visiting the United States on this occasion.

## Old Folks Say Doctor Caldwell was Right

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

The simpler remedy for constipation, the safer for the child and for you, the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle of Dr. Caldwell's Syrup Pepsin will last a family several months, and all can use it. It is good for the baby because pleasant to taste, gentle in action, and free from narcotics. In the proper dose, given in the directions, it is equally effective at all ages. El-

Breaking into a Safeway Grocery store, 1303 West Fourth street, some time last night, burglars attempted to blow the safe, and although damaging it, were unable to penetrate the inner door of the vault, and left without taking anything of value. Nitro-glycerine was used, according to police, but the charge was too small to break the inner iron door.

The same burglars also broke into the Bristol Drug company, operated by N. L. Jean, next door to the Safeway store, and after ransacking the building, left with only two boxes of expensive cigars.

The Safeway robbery was discovered by M. W. Ball, manager of the store, when he opened the place for business this morning. He said there was approximately \$200 in the safe.

Chief of Police Claude Rogers, after an investigation today, said he was of the opinion that the safe was blown by amateurs, but that he believed the men were looking only for "big money," as at the Safeway store and in the Bristol drug store small amounts of cash in the registers were undisturbed. Several watches and other things of value in the drug store were not noticed by the thieves.

Both stores were entered from the rear after the thieves bored holes with an auger through the panels and then reached through and unlocked the doors.

Sid Smithwick, assistant chief of police, and Herman Zabel, fingerprint expert, conducted an investigation and took several fingerprint pictures.

The robbery of the Bristol drug company is the third by burglars in the past three years. Jean, the proprietor, said today the burglars overlooked about \$200 in his place. He said his cash register was opened but that he had secreted the money for the night.

## Air Route Links Turkey, Britain

LONDON, June 21.—Constantinople will be brought within 70 hours of London by the opening of a direct air route between the two cities in the near future.

The new route will in all probability be used as a link in the projected Europe-Asia routes.

## Legal Notice

Notice Inviting Bids  
Notice is hereby given that sealed bids will be received by the Santa Ana Board of Education for the erection of additions and alterations to certain school buildings within the Santa Ana School District, until 7 P. M., July 5th, 1927, according to Plans, Specifications, Bulletins and Addenda, prepared by Fay R. Spangler, Architect, at which time bids will be opened.

Bids are to be submitted only upon the form provided therefor by the Architect and in conformity with the "Instructions to Bidders" contained in the specifications, a certified check representing five (5%) percent of the amount of the bid shall accompany each proposal and shall be drawn payable to the Secretary of the said Board. The successful Bidder will be required to furnish Bond in a sum equal to seventy-five (75%) percent of the contract amount and the said Bond shall be executed upon the form provided therefor by the Architect. The Owner will reserve the right to reject any or all bids received. Bids for the erection of said buildings will be received as follows:

BID G 1: GENERAL CONTRACT: Which shall include all work for the completion of the Santa Ana Polytechnic High School Arcades and covered by the Drawings on Sheet No. 1 and 2 and designated as Job No. 110.

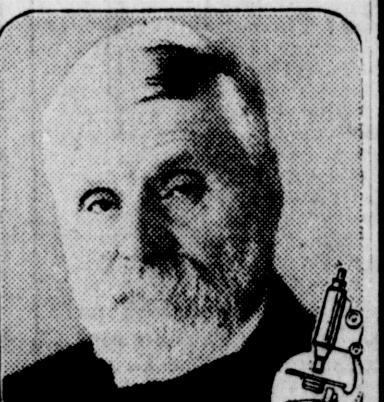

BID G 2: GENERAL CONTRACT: Which shall include all work except Plumbing necessary for the completion of an Addition to Spurgeon Grammar School and covered by the Drawings on Sheet No. 3, and designated as Job No. 111.

BID G 3: GENERAL CONTRACT: All work necessary for the completion of the Addition to the Spurgeon Grammar School Building and covered by the Drawings on Sheet No. 3 and designated as Job No. 111.

Plans, Specifications and Bid Forms may be obtained from the Architect, 809 No. Main St., Santa Ana, California, upon paying a deposit of \$25.00 as a guarantee for the return of plans and specifications and upon the date stipulated.

## State C. E. Convention To Open Here Tomorrow

### EXECUTIVE COMMITTEE FOR C. E. CONVENTION

Chairmen of the Santa Ana committee arranging for the state Christian Endeavor Union sessions here June 22 to 26 are in the above group. First row, left to right—Rev. W. H. McPeak, Miss Florence Hofer, Mrs. T. D. Knights, Miss Edith Watkins, Miss Freda Schroeder, Miss Lula M. Minter and Mrs. F. T. Porter. Middle row, left to right—Miss Helen McPeak, Miss Ruth Armstrong, Miss Edith Culter, S. S. Vogt, John A. Henderson and H. P. Rankin. Top row—Faris Edgar, Melvin Harter, J. G. Botts and Clyde C. Downing.

### 3000 EXPECTED HERE FOR FIVE DAYS OF WORK AND ADDRESSES

Advance Guard Beginning To Arrive and Plans Ready for Sessions

Y. M. C. A. BUILDING TO BE HEADQUARTERS

Largest Conclave Ever to Be Held in Santa Ana Will Close Next Sunday

The advance guard of 3000 Christian Endeavor workers began arriving in Santa Ana today to attend the fortieth annual convention of the California State Christian Endeavor Union which opens tomorrow afternoon.

It is the largest convention Santa Ana has played host to and arrangements for handling the various sessions and taking care of the thousands of delegates has been in the hands of the executive committee for the last four months.

Herbert P. Rankin, general chairman and former state president of the organization today announced that plans have been completed and all is in readiness to take care of the conclave.

A corps of over 80 committee members compose the convention board planning for the reception of the throngs of delegates who will be here.

The headquarters for the convention in the city Y.M.C.A. building were being decorated in the C. E. colors of yellow and gold and final disposition of plans for the convention were being made today.

From all parts of the state delegations will come here for the convention.

The annual convention is the biggest event of the year for the Christian Endeavor societies of the state. The sessions will continue over a period of five days, with speakers from all over the United States to address the meetings.

Herbert P. Rankin heads the Santa Ana convention committee. The complete personnel of the committee is as follows:

Vice chairmen, Miss Lula Minter and Mrs. C. W. Brakeman. Secretary, Miss Bertha Bates. Treasurer, S. S. Vogt.

Banquet committee: Mrs. T. D. Knights, chairman; Mrs. Clyde Bach, Miss Minnie Cowan, Mrs. A. Dadds, Mrs. Frank Harris and Mrs. C. A. Andreas.

Decorations: Miss Florence Hofer, chairman; Miss Carrie Seaton, Miss Grace Smiley, Miss Irene Catland, Miss Mary Elizabeth Rutledge, Miss Viola Andrus, Miss Anna Walkinshaw and Miss Metta Ronnon.

Exterior decorations, LeRoy Warren. Entertainment: Mrs. F. T. Porter, chairman; Rev. R. H. Silverthorn, Mrs. Jasper Osborn, Mrs. Warren Brakeman, Mrs. George Greer, Mrs. A. J. Smiley and Miss Vera Berner.

Finance: H. P. Rankin, chairman; L. D. Mercereau, Otto Schroeder, Fleetwood Bell and Martin Warren.

Housing: John A. Henderson.

### CITY SANITARY INSPECTOR FOR BAKERIES PLAN OF CITY DADS

Council Committee Named To Investigate and to Make Recommendations

PROTESTS AGAINST FUNERAL PARLORS

Contract Is Let to Pave Greenleaf Street from 17th to Santa Clara

Proposed regulation of the bakery industry through municipal inspection, which supervision would be extended to all acts of out-of-town bakeries; against proposed location of an undertaking establishment at west corner of Main and eleventh street; protest against issuance of a dog and animal license at 1326 West Fifth street; award of contract for paving Greenleaf street, were among matters that came before the city council at the regular council meeting held last night at the city hall.

Other matters taken up for consideration were a tentative of from Smart and Final to purchase a small strip of city land adjoining the fire station on East street; arrangements for the Christian Endeavor convention to hold here this week, and for the meet to be held next month; a complaint against overflow of water from the Cherry Blossom cafe, representations regarding location of ornamental street lights third street.

The proposal to subject all bakeries to municipal inspection as well as their personnel and equipment, including out-of-town bakeries, was considered in a communication signed William Cochems, representing Santa Ana bakers. To that it was suggested that an ordinance be adopted providing for

(Continued on Page 10)

### ARISTO-DEMOCRATIC

At the Kennel club in New York the pedigreed Irish terrier of H. Gordon Duval, president of the high-hat Park Avenue Association, is registered as "Sir Michael Gordon." But to those who frequently meet him strolling along Park Avenue in linen collar, bow tie and wrist watch, he's just plain "Mickey."

### RADIO PHONE WILL BE IMPROVED SOON

LONDON, June 21.—Considerable improvement in the transatlantic wireless telephone service is promised by the construction of a new radio station now being built by the British government at Cupar, Scotland.

Measurements and tests carried out in 1925 indicated that the north of the British Isles was the ideal situation for transmission and reception of telephonic conversation with the United States, and the Cupar station is nearing completion. This station will supersede the present station at Wroughton, Wiltshire, which is about 80 miles from London.

British radio experts consider that, although the present wireless telephone service to America is not secret in the full sense of the word, it is proving of such value that its introduction was fully justified. Complete secrecy, however, is considered desirable, and with the opening of the Cupar station, experiments to this end are to be carried out by the British post-office engineering staff.

### B. & P. W. CLUB ENTERTAINED BY MUSICIANS

Club's Latest Bride Is Recipient of Bouquet of Flowers and Coin

A musical program offered by little Miss Helen Tannenbaum, violinist, with her mother, Mrs. Adolph Tannenbaum as accompanist, yesterday entertained the members of the Business and Professional Women's club, when they met at St. Ann's Inn for their weekly luncheon and program.

Miss Helen is the pupil of Elwood Bear, and one of her numbers, "Air Varie" by Dancia, is the one she played in the recent Elstedt-ford, winning first place in the county contest. She followed this with "Farsquitta" by Fritz Kreisler, and delighted everyone with a skill and technique that seemed remarkable for so youthful a musician. Miss Helen and her mother were honored guests of the club and were introduced by the June committee, Miss Lee Patton, chairman.

President Laura Murray called attention to the reciprocity dinner which the Orange B. and P. W. club is sponsoring next Monday night at the Orange Women's clubhouse, and announced that the local members would be expected to attend, and that there would be no noon-day meeting on that date. Those who were not present yesterday and wish to go, may call Mrs. Murray or Miss Patton at the city water office, telephone 3. The dinner will be at 6:30 o'clock, and a very nominal sum is being asked.

The presence of the club's latest bride, Mrs. Thomas Patterson Douglas, who, prior to her marriage in New York City on Thursday, May 19, was Miss Hannah Marston, was recognized in happy fashion. Miss Ethel Coffman as spokesman for the Business Women, presented Mrs. Douglas with a "bride's bouquet," every flower of which, concealed a silver dime. The money was for the bride to buy any gift she chose that would represent the club in her home. In presenting it, Miss Coffman read a very entertaining original poem.

Mrs. Murray announced her July

(Continued on Page 10)

### SPANISH WAR VETERANS TO HOLD PARADE

A patriotic parade and program are to be staged in Santa Ana this year on July 4, it was announced today by Frank Rowe, general chairman of the celebration committee of the Spanish American War Veterans. The celebration here will be the first of a series of demonstrations which will be staged each year by patriotic orders of the city.

All patriotic orders of Santa Ana will participate in the celebration this year, Rowe said today. The orders recently requested the Spanish American War Veterans to assume charge of this year's program. Rowe was appointed chairman of the general committee and has appointed sub-committees to work with him.

At a recent meeting of committee heads and representatives of other patriotic orders, the support of all patriotic orders of the city was pledged to the program this year.

The program has not been fully outlined yet, according to Rowe, but tentative arrangements have been made which provide a parade in the forenoon. The route of the parade is to be announced later. Several bands, including the Santa Ana municipal band, will probably appear in the parade, it was announced. The parade will end at Birch park, where a short patriotic program will be furnished. A picnic lunch in the park will follow the program.

A tamale pie supper at Sunday school, corner 5th and Garden Grove Road, 25c per plate, Thursday, June 23rd, at 5 p. m.

Pathex Movie Cameras, Garwings.

### Berlin Pastor Is Not In Favor Of Girl's Costumes

BERLIN, June 21.—Bloomers worn by young girls at a public school exhibition of callisthenics are denounced as "improper and immoral clothing" by the pastor of Grafton, Brunswick, who for the last year has persistently refused to serve communion to any of the maidens whom he considers guilty of having committed this misdemeanor.

Indignation among the parents and relatives of the offending girls spread apace and ultimately came to a climax when it was agreed to boycott the guardian of morals by not attending his church, but to assemble every Sunday for divine services at the respective homes.

### Spats Lose Out, Opera Hats Fade With Social Set

LONDON, June 21.—Spats have taken a back seat in the world of fashion for the moment.

In fact, London has become almost a spatsless town, and dealers are at a loss to account for the sudden demise of the short gaiter which has been popular here for years. One report says the King does not care for spats as much as formerly and also that the Prince of Wales has not worn them regularly of late, all of which has affected the market perceptibly.

Opera hats, too, are on the wane, the real bloods considering them altogether too common, the silk hat being the thing for the up-to-the-minute dressers. Gloves are not quite as popular as formerly either.

### MEASLES ENDS RECEPTION FOR VISITING LADY

Between royalty or rabble, measles shows no partiality.

The elite at Laguna Beach, famous as a colony for artists and distinguished visitors, were today remarking about the unusual circumstances that occurred Sunday when a reception was planned for the Countess Antiah Luxburg, of Zurich, Switzerland, a cousin of Prince Louis Bourbon, of France, and the event had to be "indefinitely postponed" because the guest of honor was afflicted with the measles.

Everything was arranged in readiness for the reception of the countess at the Little Art theater. The guests had assembled.

Then the note came from the Laguna Beach hospital that the countess was ill. Nothing serious. Just an attack of, well, if it must be known, just common measles. Countess Luxburg had been afflicted Sunday morning and the doctor had diagnosed the case as common measles.

During the past three weeks while visiting in Laguna Beach, Countess Luxburg has been a guest at the home of Mr. and Mrs. Max Koehler, of St. Louis, at their summer home. She came here to meet Sumner Crosby, Chicago writer, at the invitation of Harold F. McCormick, millionaire harvester manufacturer, and husband of Ganna Walska, opera star.

### Young Girl Wins Carnegie Medal

LITTLE FALLS, N. Y., June 21.—Eleven-year-old Suzanna Mizner has just been awarded a Carnegie medal for her heroism.

Suzanna was standing on the high cement embankment of the barge canal here on Sept. 21, 1924, when 4-year-old Joseph Pionota fell into the water, which was 12 feet deep. The water was six feet below the edge of the cement bank. Without stopping to take off her clothes, Suzanna plunged into the water, caught hold of the boy and swam with him 22 feet to a ladder in the canal wall.

### WEST IS ASKED FOR RULING ON H. S. DISTRICT

A definite step toward ascertaining whether or not the Newport Beach, Costa Mesa and Paulano districts may withdraw from the Santa Ana city high school district for the purpose of organizing a union high school district, was taken today by R. P. Mitchell, county superintendent of schools, who in a communication to Z. B. West Jr., district attorney, informed the latter that petitions have been filed in his office by citizens of the harbor district, seeking the organization of a separate and independent union high school district.

In his letter to the district attorney, County Superintendent Mitchell requests to be advised as to whether or not action can be taken on the petition, calling attention to the fact the elementary school districts of the harbor section form part of a city high school district. He also desires advice as to procedure to be followed.

Explaining his action, Superintendent Mitchell said that it was taken with a view of obtaining an official opinion in the premises, as well as to show that his office is not interested in delaying action on the petition as has been reported in certain quarters.

### BRITISH SHIP LINE FINDS OIL COSTLY

LONDON, June 21.—British shipping companies who have fitted vessels for oil fuel during the past few years are considering whether it is possible to continue working economically with oil at present prices.

Sir Thomas Royden, chairman of the Cunard company, stated at a recent meeting of the company's shareholders that the Cunard may eventually be forced to revert to coal fuel for reasons of economy. His statement has served to focus public attention here on a matter which has been troubling shipping companies for months past.

The present price of oil fuel in England is \$16 a ton compared with slightly less than \$5 a ton for best steam coal. In the past it has been accepted that oil fuel was economic so long as the price per ton was not more than two and a half times the price of coal. Today it is nearly four times as costly. The supplies of crude oil, according to authorities here, have decreased enormously. At the present moment it is stated that the supply is only equal to the demand. At present oil burning ships equal a gross tonnage of nearly 18 and one-half million, compared with some 17,700,000 tons a year ago, and only 1,310,209 tons in 1914.

Last year more than half the tonnage built outside Britain consisted of motor tonnage. In Britain it consisted of about a third.

## You Can't Judge Clothes by the Picture in the Ad!

"What did it cost?" is the big thing to most people, whether its a cigar lighter, a motor car or a suit of clothes.

Just because we are pricing suits way down at twenty-five dollars a man is liable to get the idea that they are just the usual run of suits at that price.

If we could get that same man off in a corner somewhere and show him a \$35 price tag on one of these suits he'd admit that it was a good value—and it would be. Then if we whispered that we were going to knock off ten dollars he'd jump at the opportunity to buy.

Now get this. We are saving men at least ten dollars on every one of the snappy new Spring suits in this store.

We've been busy with the idea that men know values when they see them. And believe us, ever since we opened, we've been busy.

You don't even need to be a judge of quality—a \$50 suit of clothes couldn't be backed by a stronger guarantee than ours at \$25.

# INSPECTOR FOR BAKERIES PLAN OF CITY DADS

(Continued from Page 9)

The employment of a city sanitary bakery inspector, to be paid by the baking concerns at the rate of \$1 an hour from the time the inspector leaves the city hall and returns to his office, plus 10 cents a mile for traveling expenses. The communication did not state whether or not the inspector would be required to make trips to Long Beach, Los Angeles and other cities where bakeries, delivering bread in Santa Ana, are located. It was proposed that these inspections, to insure desired results, should be made once a week to each establishment, the cost of inspection to be charged against the bakery inspected. The matter was referred to a special committee made up of Trustees J. L. McBride, Stanley Goode and Dr. V. G. Presson, the latter in capacity of city health officer.

**Protest Filed**  
A considerable portion of the evening was devoted to the consideration of a protest filed by a large number of resident owners in the North Broadway residence district against the proposed location of an undertaking establishment at 116 West Seventeenth street. It was brought out that the city planning commission at a meeting held on June 3, had approved of the proposed location. The protesting property owners, represented by Attorney Fred Forgy, called attention to the fact that the location of such a business in the midst of what is considered a high class residence section, would have a most injurious effect on their properties. They also re-creation of ornamental lights on taken on the application of the undertaking concern or their own protest until all members of the council are present.

Mayor Frank L. Purinton expressed himself as favorably impressed with the arguments presented by the property owners, adding that if he had been a resident in the section, he would have signed the protest. He also thought the trustees should defer action until a full board is in session. A different view was undertaken by Councilman Stanley E. Goode, who said that an undertaking parlor cannot be considered a business that should be located in a section zoned for business purposes. On the contrary, he pointed out, an undertaking parlor would not be welcome in a highly developed business section. He also announced his willingness to vote on the question, though one of the trustees, William J. Kelly, was absent.

**Demand Action**  
Jack Wallace, a local real estate broker, representing Samuel Harrell, Tillie Harrell, G. O. Berry and Ethelyn Berry, principals of the undertaking concern, objected to further delay and asked that the board take action within a week. He made a point of the fact that other businesses, like service stations and the like are located in the neighborhood. Following some further discussion, it was decided to postpone the hearing of the protest until the next regular meeting of the council, set for Monday evening, June 26.

The protest against the dog and animal hospital conducted by Dr. F. C. Wright at the corner of Fifth and Hesperian streets was referred to a special committee composed of Trustees J. L. McBride, Stanley E. Goode and W. G. Knox. According to the complaint, signed by 17 residents living in the neighborhood, the hospital constitutes a nuisance which should be abated.

Contract for paving Greenleaf street from Seventeenth to Santa Clara, was awarded to T. W. Oglesby at a total cost of \$24,780.37. The bid of Wells and Bressler was \$26,126.99 and that of the Griffith company, \$28,129.62.

**Makes Offer**  
A tentative offer from Smart and Final to purchase a small strip of city land on East First street, bordering upon their property and needed for traffic purposes, was referred to a special committee made up of W. G. Knox and Stanley E. Goode. Councilmen Goode and McBride were authorized to arrange for the decorating of the city in connection with the Christian Endeavor convention and the air meet, at a cost not to exceed \$300. At the same time the chief of police was given instructions regarding handling of traffic incidental to the Christian Endeavor convention.

Trustee Goode complained against overflow of water from the Cherry Blossom cafe and the matter was referred to Dr. V. G. Presson, city health officer, for necessary action. Representations regarding the loquacious that no action be Third street were made by several citizens, who claimed that the plans approved by the city authorities call for only four lights to each block when they had expected to have not less than six lights, with four at the street intersections.

**B. & P. W. Club Is Entertained**

social committee as being composed of Miss Helen Gallagher, Miss Gallene Finley, Miss Pearl Nicholson, Mrs. Carolyn Yoch Burnett, Mrs. Ruby Eckel and Mrs. Eleanor Elliott. This committee will have in charge the card party and supper at the Rose Arbor tea room as a benefit for the Mississippi flood sufferers. Mrs. E. S. Chamberlain of the Rose Arbor, is co-operating by placing her establishment and its full equipment at the service of the club, free of charge. The exact date will be announced later.

# AT THE THEATERS

James Hall, Richard Arlen and Louise Brooks in a scene from "Rolled Stockings," current attraction at the Yost Broadway theater.

**YOST THEATER**  
A gripping story of the underworld as of today is embodied in the production, "Cheaters," which was shown here for the first time yesterday at the Yost theater. It is a gripping and dramatic film opus plentifully interspersed with comedy touches for relief. A great deal of credit is due the director of the picture, Oscar Apfel, for his admirable handling of many difficult situations and a smooth continuity.

There are some splendid scenes in which the players give more than excellent accounts of themselves in their various roles. The cast of players includes Pat O'Malley, Helen Ferguson, George Hackathorne, Lawford Davisson, Helme Conklin, Claire McDowell, Helen Lynch and Max Davidson.

**WEST COAST WALKER**  
Even if you never laughed at a picture show in your life you probably will laugh at "Rookies," the current attraction at the West Coast-Walker theater, when George K. Arthur and Karl Dane enact buddies at a training camp on the eve of the World war.

Dane as the hard-boiled sergeant, is a bit harder-boiled than you have yet seen him, and his technique as a tobacco chewer, seems even a bit improved if such a thing were possible. As for the work of Arthur—it stamps him as one of the best film comedians of the year. It has been a long time since such continuous volleys of laughter have been heard at a motion picture show.

As for the thrills in the story—they are about as thrilling as anything hardened theatergoers have seen in many a long day—and almost painfully convincing if one many judge from an overheard conversation. "With Betty, more, she's pinched my arm 'till it's all black and blue."

Fanchon and Marco's "Screens Idea" is another bell ringer. And the Glorias in the "tin type dance" are delightfully original—and their dancing is enhanced in charm by their pantomime work! The Sunkist Beauties are as beautiful as ever, and wear particularly fetching costumes, especially in their introductory number.

**YOST BROADWAY THEATER**  
"Rolled Stockings," "youth" picture at the Yost Broadway theater, has everything—a thrilling picture crew race, some exciting automobile scenes, snappy comedy, a good love story and pep. It is healthy young man and womanhood at their best.

The youngsters cheered and laughed at the opening show, and the oldersters chuckled. It is happy entertainment by a snappy cast of youngsters. James Hall and Richard Arlen, hardly along in their twenties, typical college undergraduates, have the principal male roles; Louise Brooks, brunette beauty, who has been seen in a number of well known pictures during the past year, is the heroine; and the vamp is blonde Nancy Phillips. She plays a featured part for the first time.

Two brothers, one a gay young philanderer (James Hall) the other a serious-minded youth with athletic ambitions (Richard Arlen) fall in love with the same girl. Complications ensue. When the crucial moment arrives, Hall steps into the breach, faces expulsion from college, and saves his brother from disgrace. At the same time he makes it possible for Arlen to win the big race.

## ASHFORD'S CAR IS STOLEN; RECOVERED

In less than six hours after the automobile owned by W. B. Ashford, 833 North Van Ness street, was stolen last night from in front of 115 North Broadway, the car was recovered in Los Angeles, police announced today.

A number of clothes, in the car at the time it was taken, were found undisturbed when the machine was recovered.

The car was stolen at 9 o'clock last night and recovered by officers at 2:45 a. m. today.

## Bridges To Coach Olympic Gridders

**SAN FRANCISCO, June 21.**—Frank B. Bridges of Baylor university, Waco, Tex., has accepted terms to coach the Olympic club football team here this year, it has been announced.

**WRIGHT LEADS PITCHERS**  
**SAN FRANCISCO, June 21.**—"Doc" Wright, twirler of the Los Angeles club, continued to set the pace in the Pacific Coast league with the best pitching record thus far this season. "Doc" with 11 victories and two defeats for an average of .848, was slightly ahead of John Miljus of Seattle who had an average of .769 with ten wins and three defeats.

**NEWPORT**  
**NEWPORT BEACH, June 21.**—Mrs. Ida Naylor, postmistress of Newport Beach, who has been quite ill for several weeks at her home on the Coast boulevard, was taken to the Harbor hospital Sunday afternoon for treatment.

Mr. and Mrs. W. W. Woodward, of Monrovia, spent last week in their apartments at the corner of Twenty-Ninth and Ocean front.

The Rev. W. H. White, of Santee, a former pastor of the Newport Community Methodist church, called on his former parishioners here Wednesday.

Mr. and Mrs. W. H. Andrist, of Huntington Beach, came over Sunday evening to play at the Newport Beach church service. Mr. Andrist is a violinist and his wife is a pianist.

Mr. and Mrs. J. H. Burk, of Los Angeles, were out for the weekend at their West Newport cottage on Thirty-sixth street. Saturday evening they entertained a few friends and neighbors at a bridge party.

A gay party of Long Beach society girls enjoyed a week-end party in the Vandewater cottage on the pool at West Newport last week.

## EXPECT 3000 HERE FOR CONVENTION

(Continued from Page 9)

chairman; Floyd Rogers, Addison Dadds, Mac. O. Robbins, Ernest Hill and Lester Rohrs.

Hospital: Miss Edith Watkins and Mrs. Caroline Campbell.

Information and post office: Faris Edgar, chairman; Harvey Bear, Howard Youel and Lyle Cook.

Music, Miss Ruth Armstrong.

Pre-registration: Miss Edith Culter, chairman; Verne Harrison, Walker Merrifield, Raymond Gri-set, Pauline Snodgrass, Paul Sloop, Douglas Grandy and Vernon Robinson.

Pages and guides: Allen Goddard, chairman; William Bosley, Kenneth Rohrs, Lawrence Hogue and Mearl Louel.

Pulpit supply: Rev. W. H. McPeak, Leon Lauderbach and Mrs. O. S. Catland.

Registration: Miss Freda Schroeder, chairman; Miss Esther P. Boone, Miss Elizabeth Heemstra, Miss Mary Grist, Miss Jean Anderson, Miss Lizzetta Phillips and Miss Bertha Bates.

Reception: J. G. Betts.

Publicity: Alfred Aul.

Recreation: Clyde C. Downing.

Ushers: Miss Helen McPeak, chairman; Miss Gail Finley, Miss Jean Nicholson and Miss Nancy Elder.

Members at large: Rev. Earl P. Cochran, state C. E. pastoral counselor; Glen D. Wight, state C. E. president; and Mr. Mendenhall, president of the Orange County C. E. union.

Youthful members of the Highland avenue Methodist Episcopal church who were among the graduates of the Santa Ana and Tustin high schools Friday night were honored Sunday evening when the Rev. W. E. Edgin held special services for them at the church.

Several addresses were given by the young people as follows—Miss Gertrude Bates, "The Aims of High School"; Miss Dorothy Bement, "After High School, What?"; Miss Helen Evans, "The Joys of High School"; and Judson Riley, "Why I Am Going On To College."

Miss Marian Stull who recently received her degree at the University of Southern California spoke on "Why University?" and Ned Crooke of the Fullerton high school talked on "Seriousness in High School."

J. A. Cranston, superintendent of the Santa Ana schools, was an honored guest at the services and he also gave a brief talk.

Special music was provided by Mrs. Kathryn Bernard, Miss Helen Evans, and Miss Dorothy Bement.

## Police News

Four persons were fined in police court yesterday for violation of city parking laws. Each were given a \$2 fine. They were Florence G. Horner, T. Westgate, R. R. Miles and T. Gray Johnson.

Charged with speeding, Edwin Hallifax, 220 Orange avenue, was fined \$10 in police court yesterday.

Mrs. Elaine Von Zandt, 1206 West Fourth street, reported to police today that boys have, for the past several days stolen fruit from her citrus trees located in the yard of her home. Police are conducting an investigation.

## SANTA ANA FRATERNAL AND PATRIOTIC ORDERS

### CECIL EDWARDS BIDS FAREWELL TO HIS MATES

Friendships formed while a member of the Santa Ana chapter, Order of DeMolay, are held highly by Cecil Edwards, last active charter member, who expressed his farewell before the chapter at a meeting recently.

For more than four years, Edwards has been connected with the DeMolay order in Santa Ana. He was one of the members initiated when the chapter was instituted May 7, 1923, by Long Beach. During the time he has been a member of the order he has held various offices. The highest office he held was that of scribe during the first term of last year.

Edwards reaches his majority in July and then becomes inactive in the work of the DeMolay order.

The chapter has grown from an order with a few charter members to one of over 100 members while Edwards has been a DeMolay.

The friendship among the chapter members and the ideals upon which the order is founded were declared by Edwards to be the greatest things that he received from DeMolay work. Many social affairs have been held by the chapter and other activities undertaken during the years that the chapter has been organized, Edwards recalled.

### DE MOLAY TO HOLD BAZAAR ON FRIDAY

An orchestra has been procured for the Orange county DeMolay Bazaar to be held Friday evening at Orange county park by the members of the three DeMolay chapters of the county. It was learned from Raymond Brown, master counselor of Templar chapter, Orange, who is in charge of the affair.

DeMolays of Santa Ana, Orange and Fullerton are to attend the bazaar, the first ever held by the chapters jointly.

Early in the evening a pot luck dinner will be served. The county DeMolay boys will have the opportunity of meeting each other and forging links connecting the chapters more closely, it is intended. After the dinner, the pavilion will be opened and dancing will be held.

### GOLD BOND ISSUE OFFERED BY U. S.

WASHINGTON, June 21.—An offering of 20-year gold bonds, dated June 15, 1927, and bearing interest at the rate of 3% per cent has been announced by the treasury. The bonds will be issued subject to call in whole or in part on four months notice after June 15, 1943.

Cash subscriptions in the sums of approximately 200 million dollars at 100% and accrued interest are invited. In addition second Liberty loan bonds and the new treasury bonds will be exchanged at par for each with the interest on the Liberty bonds from May 15 to June 15 paid in cash. The amount of the exchange offering will be limited by the amount of second Liberty loan bonds tendered and accepted.

"It will be remembered that the second Liberty loan bonds are called for redemption on November 15, 1927, and that interest thereon ceases on that date," said the treasury announcement. The present exchange offering gives holders of second Liberty loan bonds an opportunity to secure a long-term government bond in place of those they now hold.

This new issue of gold bonds will enable the treasury to take care of 387 million dollars in certificates of indebtedness maturing on next June 15, and also will ease the way in retiring the second Liberty loan bonds.

### BAPTISTS TEACH FUNDAMENTALISM

CHICAGO, June 21.—Plans to make Des Moines, Ia., university the first school in the United States "absolutely committed to the principles of Baptist fundamentalism," have been announced here by the Baptist Bible union.

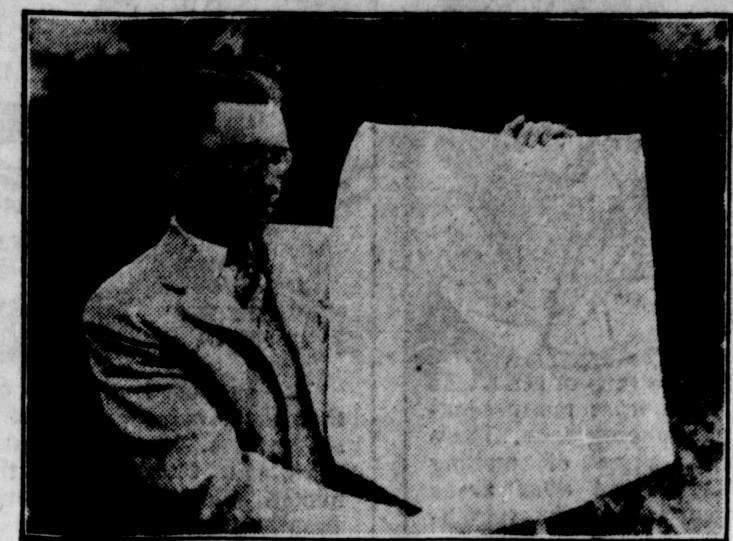

The Des Moines institution, in financial straits for a time considered merging with Drake university. This move brought an appeal from directors to the Bible union. The future of the school, which has an enrollment of 600, seems assured, union officials said after preliminary search of records for any clause which might prevent the union from assuming complete control had brought negative results.

"Des Moines university would be the only Baptist university in America, absolutely committed to the principles of Baptist fundamentalism, union leaders said. "The transaction, when completed, will mark a new stage in the cause of fundamentalism in America."

The union began its annual convention by re-electing Dr. T. T. Shields of Toronto president for the fifth term.

Pathex Movie Cameras, Gerwings.

### LAST ACTIVE CHARTER MEMBER

Cecil Edwards, of the Santa Ana chapter, Order of DeMolay, is the last active charter member, having been a DeMolay for over four years.

### DAUGHTERS OF VETERANS SEW FOR S. A. NEEDY

Sewing for Santa Ana's needy families occupied the hours at the all day meeting held Friday at the home of Mrs. Walter Sutton, of Garden Grove, by members of the local chapter of Daughters of Union Veterans of the Civil War.

At noon a pot luck dinner was served by the hostess, who was assisted by Mrs. Elizabeth Adams, Mrs. Emma Chapman, Mrs. Estelle Anderson, Miss Bertha Belt and Miss Mabel Belt.

Those present at the meeting included Mesdames Ida Mae Clem, Lydia B. Fippes, Florence Hicks, Eva Piper, Cora Hoffman, Sarah Brown, May K. Church, Rowena Grout, Katherine Rinsched, Cora Graham, L. A. Hill, Esther Gardner, Nellie Parker, Ella Tooles, N. E. Finch and her house guest, Mrs. Jesse Thayer, of Michigan; Miss Gladys Vanhise, G. T. Hoffman, Charles Graham, Walter Sutton, Howard and Preston Piper, little Miss Fern Hill, and the hostesses, Mrs. Adams, Mrs. Emma Chapman, Mrs. Anderson, Miss Bertha and Miss Mabel Belt.

The Royal Neighbor lodge of this city presented the evening's program at the Friday night's meeting of the Fraternal Aid Union held in the Knights of Pythias hall.

The first number on the program was the presentation of a Gibson Girl chorus which included Mrs. Marie Knight, Mrs. Bessie Simmons, Mrs. Leona Sundstrom, Mrs. Maxie Wilson, Miss Hazel Royce, Mrs. Nadine Wood and Mrs. Thelma Wilbur.

The Royal Neighbor fancy drill team put on its special drill for the benefit of the union and Miss Royce gave two clog dances which received much applause.

Following the program refreshments were served by a committee headed by Mrs. C. E. Jasper, after which an hour of dancing followed with Miss Evelyn Hunton at the piano.

Members of the Fraternal Brotherhood enjoyed a steak bake at the Orange County park Friday night, when they gathered for supper and for an evening of entertainment afterwards. Arrangements for the evening were made by Mr. and Mrs. Roy Dysart and Kenneth Coulson.

Members of The Past Matrons association of Hermosa chapter, No. 105, Order of Eastern Star and three guests were entertained on Thursday at a 1 o'clock luncheon at Masonic Temple when Mesdames Minnie Holmes, Elda Huntington, Elizabeth Moore and Laura Mitchell were hostesses.

A two course luncheon was served at crossed tables, smilax twined in the center of which was a huge basket of carnations, pink and blue tulle tied and at the four ends small baskets of sweet peas. The color scheme, carried out in pink and blue, was beautiful. Covers were laid for 30, one of the four hostesses at each end of the table.

At 2:30 a business meeting followed conducted by President Mrs. Tiesseau Whitson.

Guests at luncheon and at the meeting were Nona Cloyes, W. M. of Hermosa Chapter, Mrs. W. H. Hendrix of Los Angeles, and Mrs. T. A. Mahr of Santa Ana.

The next meeting will be a picnic July 21. An invitation extended to the members by Mrs. Hattie B. Knight and daughter, Mrs. Blanche Hansen to hold the picnic at their Laguna Beach cottage was accepted. Members who have cars are requested to take those who have no conveyance.

Tires at lowest prices. Balloons and High Pressure rebuilt Guaranteed Tires. All sizes in stock. Gerwing, 312 N. Broadway.

Steak Bake Held By Brotherhood

Members of the Fraternal Brotherhood enjoyed a steak bake at the Orange County park Friday night, when they gathered for supper and for an evening of entertainment afterwards. Arrangements for the evening were made by Mr. and Mrs. Roy Dysart and Kenneth Coulson.

Members of The Past Matrons association of Hermosa chapter, No. 105, Order of Eastern Star and three guests were entertained on Thursday at a 1 o'clock luncheon at Masonic Temple when Mesdames Minnie Holmes, Elda Huntington, Elizabeth Moore and Laura Mitchell were hostesses.

### Medium's Words Cause New Hunt For French Ace

RIO JANEIRO, June 21.—Because a medium told her that her son was a Bona Vista, one of the Cape Verde islands, the mother of Capt. Saint Roman, French aviator, it said to have requested that a new search be made for him.

Saint Roman took off from St. Louis, Senegal, May 5, for a flight across the southern Atlantic to Pernambuco, Brazil, and nothing has since been heard of him, or his flight companion, Commander Mouneyres.

A search was made in the vicinity of the Cape Verde islands, particularly Bona Vista, but not a trace of the flyers was found.

## Frostless Citrus Land

United States Tires  
are Good Tires

PLENTY OF RUBBER in United States Tires starts out in the Far East—in the United States Rubber Company's Plantation. This Company owns 10,000,000 rubber trees—enough to make an unbroken line nearly twice around the earth. Seven million of these trees are producing rubber.

YOU'VE a question to ask—  
"How do I know that there's  
plenty of Rubber in Royal Cord  
Balloons?"

A natural question. You can't see all this "plenty of rubber"—and you can't tell it by weighing the tires. A tire manufacturer can make a tire weigh almost anything he pleases by "loading" it with heavy substances which add nothing to the wear.

The "Plenty of Rubber" in Royal Cord Balloons is distributed where it will do the most good. Take our word for it—until you prove it for yourself on the wheels of your car.

### The Telephone Directory

Good telephone service depends largely upon care in calling telephone numbers. A wrong number called causes loss of time and inconvenience to you, to the operator and to the party called.

Telephone directories are issued frequently, revised to include the latest changes and additions to the list of telephone subscribers.

You will get better service if you—

Consult the current issue of the directory for telephone numbers instead of trusting to memory.

Call Information if the party you want is not listed.

Give the number clearly and accurately.

These suggestions are intended to aid every telephone user. We earnestly solicit your co-operation.

The Pacific Telephone And Telegraph Company

## Sore, Inflamed, Swollen Feet

This Powerful Penetrating, Antiseptic Oil Must Give Results or Money Back.

Go to any good druggist today and get an original bottle of Moore's Emerald Oil. The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your foot troubles will be a thing of the past and best of all free from all offensive odors.

FOLKS TALK LIKE THIS WHERE E'ER WE GO --- WE'RE GLAD TO HAVE 'EM PRAISE US SO!

## SICK WOMAN SOON RECOVERS

Taking Lydia E. Pinkham's Vegetable Compound

"A neighbor advised me to try Lydia E. Pinkham's Vegetable Compound, which she said helped her so much. So I bought a few bottles and tried it out. It sure helped me wonderfully. I felt much better. My work is no longer a dread to me. If I hear of any one who is troubled the way I was, I will gladly recommend the Vegetable Compound to them and I will answer any letters regarding to the same."—Mrs. Martha Meacham, 1134 N. Penn. Ave., Lansing, Mich.

"I was fifteen years old. After taking Lydia E. Pinkham's Vegetable Compound I got so I could do all my housework and I am in good health."—Mrs. Marie K. Williams, Ketchikan, Alaska.  
From Michigan to Alaska, from Maine to Oregon and from Connecticut to California letters are continually being written by grateful women recommending Lydia E. Pinkham's Vegetable Compound. The Compound is made from roots and herbs and has been in use for over fifty years.

## KNOCKED AT DEATH'S DOOR

Bowen's air speed was registering 130 miles per hour at the time the left wing touched the ground.

## Air Pilot Hits Ground at 130 Miles An Hour And Escapes

EDITOR'S NOTE: This is the seventh of ten articles telling of the heroic exploits and thrilling experiences of Lindbergh's sale in the air mail service. Succeeding articles will appear daily.

By RODNEY DUTCHER  
NEA Service Writer

WASHINGTON, June 21.—Pilot L. L. Bowen "knocked on the door of eternity" one day last August, to use the expression of Assistant Postmaster General Glover.

Bowen's experience was not isolated, and many more, where pilots had equally close shaves, may be cited, but the adventure is typical of what often happens to mail pilots.

Flying east from Omaha, Bowen encountered storms near Valparaiso, and was flying under a 50-foot ceiling, so he decided to land there. He found the field covered with water and was forced to turn back toward Omaha.

Couldn't Come Down

"The two electrical storms met," says an official report, "and because of poor visibility he lost his way, but after flying several minutes he circled several times, but could not find a suitable place to land."

"However, he did recognize a road leading toward Lincoln, which he attempted to follow until he came to the Burlington tracks, which would lead him to Omaha."

"While following the road he evidently went through a cut, as he scraped the left wing light on the ground just enough to break the lens and fill the streamlining with mud and weeds."

"Upon feeling the wing touch he pulled the ship up into the low clouds and again became lost, but after a short time located the Burlington tracks and came into Omaha, landing on our field at 2:10 a. m."

"Bowen's air speed was registering 130 miles per hour at the time the left wing touched the ground. This is considered a very narrow escape. Had he been eight inches closer to the ground the wing would have caught, and at the rate of speed at which he was traveling it would probably have been one of those cases in which we would never have known just what happened."

Pilot J. D. Hill, flying from Cleveland toward New Brunswick, landed on a treetop last January.

"The motor first cut over some coal mines near Aristes," says Hill's report. "Trying to reach the open country I turned north and cleared one ridge, only to find more timber and brush land. Tried both tanks, hand pump and gravity. The ship continued to lose gravity till I had to stick it in the trees."

"I kicked the rudder to get squared off and pancaked the ship in the tree tops without turning it over. There was a little jar, but I have had air bumps that were worse."

Hill walked three miles to a farm house and then took a long sleigh ride to the nearest telephone.

Pilot Hill is not the only one who has learned how to land in a tree top correctly.

"While coming to land on the Omaha field at 1:45 a. m.," says a report to the Airmail Service here, "Pilot Biffie approached the field from the north over the three tall cotton trees near the north edge of the field."

"As he was about to clear one of these, his ship settled unexpectedly and Biffie found himself staring the rapidly approaching tree directly in the face."

"So he advanced his throttle to lift the ship over this obstruction, but for some reason the motor did not at once 'take.'"

Went Right Through  
"Biffie decided that his only chance was to hit the tree as squarely as possible, for there was no time for him to avoid it."

"His aim could not have been improved upon, for he struck the tree squarely with the hub of his propeller. At the same time his motor got back on the job. He opened the throttle and forced the ship through the branches, across the trolley line and into the field. He taxied up with branches and limbs of all sizes sticking through the wings and radiator. Motor, fuselage and tail were undamaged."

## PICKFORDS MAY WAIT LONG FOR THEIR DIVORCE

PARIS, June 21.—Marilynn Miller will continue as a Ziegfeld star after her divorce from Jack Pickford, for which both she and her husband have arrived in Paris, Miss Miller has announced.

The announcement revealed that Miss Miller had signed a contract to appear in a Ziegfeld musical comedy next fall. Meantime Jack and Marilynn plan to see the sights of Paris together while awaiting their divorce, and, simultaneously, the Paris bench was reported to be planning to make their sight-seeing activities continue for a long time.

The French judges were incensed by articles in newspapers quoting Marilynn as saying that "Paris is the easiest place in the world to get a divorce—and better even than Reno, Nev."

The former musical comedy star denied she made such a statement, but the judges, who have been restive under native criticisms that Americans were given special speed privileges denied to French divorce applicants, may make an example of the highly press agented pair in an attempt to satisfy the public that they are not discriminating in favor of foreigners.

It was recalled that Mae Murray, another American movie star, obtained a decree in 10 days, although many Frenchmen are forced to wait as long as two years.

"Jack and I could have been divorced in America," Marilynn said in an attempt to overcome the unfavorable impression of the jurists. "We chose Paris because it gives us both a vacation while we are waiting."

She reiterated that she and her husband were on the best of terms and expected to remain good friends.

## MONEY CRISIS IN JAPAN HITS SHIP INDUSTRY

TOKIO, June 21.—Among important institutions that have been affected by the recent financial crisis in Japan is the Kawasaki Dockyard at Kobe.

This shipbuilding firm is one of the largest in the Far East. The yards cover about 40 acres with a water frontage of about a mile. Since the outbreak of the European war, the equipment in the dockyard has been so improved and enlarged that this institution is today capable of building anything up to a dreadnaught of 27,000 tons.

Of recent years the Kawasaki dockyard was usually called upon to construct Japan's war vessels and, at the time of the financial crisis was building seven vessels for the Japanese navy, one cruiser of 10,000 tons, another cruiser of 7000 tons and five destroyers.

The failure of the Peers' bank (Fifteenth Bank) to weather the recent financial storm has greatly affected the fortunes of the Kawasaki dockyard. The firm is said to be indebted to the Peers' bank to the extent of some 130,000,000 yen, and the manager, Kojiro Matsukata, son of the late Prince Masayoshi Matsukata, one of Japan's greatest financiers, is today being roundly blamed for gambling in the dockyard's business.

When the Peers' bank got into difficulties and was forced to close its doors owing to its inability to meet the panicky runs upon it, the Kawasaki dockyard, which is reported to have received loans to the extent of 130,000,000 yen, was one of the first corporations to be affected.

The inventory of the dockyard is set down at a grand total of 322,000,000 yen, but it is impossible to say yet how much of these assets have not been mortgaged.

Chinese Girl Was Student In Paris

PARIS, June 21.—Mlle. Chen, a member of the provisional government of Shanghai, was well known in Paris, where she studied for many years.

When in Paris she was fond of relating her early experiences as a youthful revolutionary in China, and her opinions were extremely advanced. She appeared delighted when she described how at the age of 17 she used to journey about southern China, carrying in her luggage the dynamite to be used for terrorist plots.

When the revolutionary movement was crowned with success in her native city of Canton she was one of the chosen group of revolutionary students sent to Paris to learn western civilization. A few years ago she successfully passed her final law examinations and received the degree of doctor of laws.

Silver King Of Colorado Passes

SEWARD, Alaska, June 21.—John Bach, pioneer of Seward since 1904, and once designated the "silver king of North America," through amassing a fortune in the early days of Colorado, died here. He was 75 years old, and spent most of his life pioneering. A few years ago he had both legs amputated below the knee as the result of freezing during the Nome gold rush. Bach had been conducting a cigar store here.

but leading edges of both upper and lower wings were badly hacked up, propeller tips were curled up and the radiator had a hole plugged in it."

## Men Need Good Water—That Complies With Three Tests of Healthfulness

A MAN'S health is his best insurance for happiness, prosperity and longevity. Good food, plenty of exercise and Good Water—these are requisites that doctors say are fundamental toward this end.

Good Water—This is most important—but far too often overlooked. Many waters seem good, but are not good for you to drink. They are not healthful because they do not comply with the three simple health tests that doctors recommend for water.

These tests of healthful water are only common sense. First—water must be pure; second—water should contain minerals, and third—water should be good to taste. Repeat them again—

1. Purity.
2. Minerals.
3. "Good to Taste."

Bird's-eye view of Arrowhead Springs, America's Famous Spa. From this scenic spot Arrowhead Spring Water bubbles fresh, sparkling and pure.

Pure water protects health. It is your guarantee against harmful bacteria, injurious chemicals and other impurities.

Minerals in water are your assurance that the water will neither add nor detract from the mineral supply of your body. Authorities agree that the best drinking water should contain from 5 to 10 grains of mineral salts per gallon.

Good to Taste—This is nature's final stamp of approval on drinking water. Some waters taste "flat." Others are "hard." They are below par for drinking purposes. Their taste is Nature's "warning" to you about this deficiency.

Arrowhead Springs is water headquarters. We sell many kinds for many purposes. We offer distilled water to those for whom doctors prescribe it. But we do not recommend it for healthy persons. At the

Spring, we also have high-surface at this famous spring, it is mineralized in huge glass-lined tank cars, rushed to the Los Angeles bottling plant, and delivered to your home absolutely fresh. You drink it as if you were at the spring, miles away!

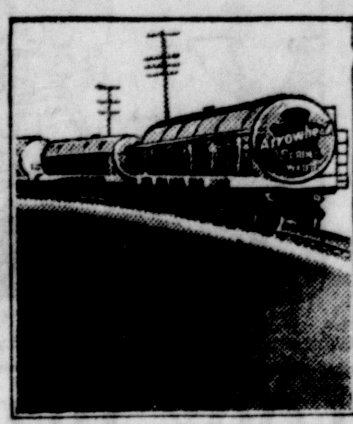

Free Health Information—We have compiled some authoritative data on the health values of drinking water which you may have free upon request.

Billy Evans Says

slight misunderstanding as to how many are out has been cause of many of the prize "bats" that have been pulled in majors.

According to wire reports "Hack" Wilson, who is playing such a sensational game in the outfield for the Cubs, came close to being such a victim in a recent game with New York.

Accidentally, the habit many outfielders have of throwing the ball to the bleachers when the game is over, for the fans to scramble for, has led to as many peculiar situations as the lack of knowledge as to how many are out.

Since there are only three outs in an inning it would seem not at mental strain to keep track of them, yet such trivial lapses in memory make for prize "bon-bons."

HOW STAGE WAS SET  
So happened that Wilson's catch of Lindstrom's fly, leaving it was the third out that the game, he started to throw the ball into the bleachers a souvenir for his followers. The shouts of protest averted it.

Several years ago at the White House, Left Fielder Roy Elson caught Chicago White Sox, did the thing Wilson started to do, let the ball fly up among his friends. Fortunately it didn't cost the game.

OTHER COSTLY MISTAKES  
A measure of the habit seems to be a measure of the outfielder's. Some years ago "Doc" Gessler of the Cubs, with two runners on, caught a fly ball for what he believed was the third out and let it go.

By the time he could return to the field, finally realizing only two were out, because of the demonstration made by the fans, both runners had scored.

Once saw "Shovel" Hodge, playing for the Chicago White Sox, lose a ball game at Detroit by throwing the ball away without the consent of the umpire.

After that happening Hodge always let the umpire decide as to the fitness of the ball for play, simply took care of the pitcher and passed up umpiring.

avor Canzoneri  
To Defeat Taylor  
CHICAGO, June 21.—Tony Canzoneri, challenger for the bantamweight crown, resigned a 7 to 5 favor over Bud Taylor, Terre Haute, champion, today—two days before their title bout, which is scheduled for Cubs' park Thursday night.

Following a lengthy training camp for the Canzoneri match, the side saddle again is becoming popular among English women.

VIRGINIA VAN WIE, 18, HAS  
LOW QUALIFYING SCORE FOR  
BUFFALO WOMEN'S TOURNEY

By MARY K. BROWNE  
(United Press Staff Correspondent)  
BUFFALO, N. Y., June 21.—The sun forced his way through the thick fog to smile a welcome to the field of 98 women golfers who teed off yesterday in the qualifying round of the invitation tournament over the sporty Buffalo Country club course.

Miss Virginia Van Wie, 18-year-old Chicago city champion, turned in the low qualifying score of 86. Miss Edith Quier, of Reading, Pa., was next with an 88.

Last minute withdrawals of Glenna Collett, eastern and former national champion; Miss Ada McKenzie, Canadian champion, and Maureen Orcutt, Metropolitan champion, were a blow to the tournament committee and a great disappointment to the players.

Miss Virginia Van Wie is playing in her best form and should win the tournament. The main weakness in her game is that she lacks tournament experience and the "will to win" spirit.

Newcomer is Dangerous  
Mrs. Arthur Harrison, who has just recently come here from England, is a golfer who promises to make it interesting for Miss Van Wie, should they meet.

Mrs. Harrison has been champion of Norfolk county, England, and this is her first tournament in America. She is the rugged English build, and hits a long ball from the tee, but is inclined to be wild. Her second shots, however, are excellent. Yesterday, she was nervous and found all kinds of trouble.

Louise Fordyce found putting tricky. She even took four putts on one green and three on most of the others. Helen Payson is playing well but she is not yet a sufficiently developed golfer to keep up with the race.

Different Than Oakmont  
In watching the women play, after seeing the men's National Open at Oakmont last week, the high mashies and mashie niblick shots dropping dead by the pin, the shots that were so beautiful at Oakmont were conspicuously absent among the women golfers at Buffalo.

The women are inclined to use a hacking shot that pops the ball out of the rough and it usually runs like mad after it reaches the green. This is one shot which the women should be able to play as well as the men from a short distance from the green, for it is a question of courage and understanding, rather than strength.

On their approaches, the women seem content to get anywhere on the green, rather than to play for the pin. That is due, I believe, to the fact that they cannot play their approaches with sufficient stop to take a chance to play for the pin.

Although women have played cricket almost since the game was established in England, the recent organization of a Women's Cricket association is the first attempt to give them official recognition.

ARMOUR'S PUTT THAT TIED HARRY COOPER

Here is the grand climax of the 1927 National Open at Oakmont—the sinking of a nine-foot putt that gave Tommy Armour, Washington, D. C. pro, a tie with Harry Cooper, Los Angeles pro, for the biggest prize in golfdom. Cooper, who had finished early, was leading with 301 when Armour found himself facing the par 4 18th hole with a birdie three needed to win—and made it! Note the immense gallery that witnessed Armour's final shot. It was estimated to number close to 10,000 persons.

Well, Harry Cooper, left, was a good sport about it anyhow. The talented and cocky Californian lost to Armour in the 18-hole playoff but he could smile just the same as the picture shows.

DEMPSEY SCHEDULED TO SIGN  
CONTRACT WITH RICKARD FOR  
BOUTS WITH SHARKEY, TUNNEY

By HENRY L. FARRELL  
(United Press Staff Correspondent)

NEW YORK, June 21.—Jack Dempsey will be given a license to fight in New York without being submitted to special physical examination by the New York Boxing commission.

Dempsey, late today, if it is not too dark for the photographers, will accept Tex Rickard's terms to meet Jack Sharkey and to fight Gene Tunney for the championship if he wins from Sharkey.

Sharkey will do the same thing. Those are the features of a ceremony that will start Rickard on what he hopes to be one gate of \$1,000,000 and a second of \$2,000,000.

Tunney Perturbed  
Everybody concerned seems to be happy and satisfied with the exception of Gene Tunney, the champion.

Tunney, one of his "official family" said, does not like the idea of a Dempsey-Sharkey fight on the theory that it is a big gamble that might go the wrong way and hurt or ruin the championship fight.

"We will not dispute the business sagacity of Tex Rickard in arranging a match between Dempsey and Sharkey because it is sure to be a financial success," the speaker said.

"But we are concerned about the effects of this fight on the championship match that is to follow. We have a good guarantee for the championship fight and we'll have that good guarantee even if Rickard goes broke."

COUNTY LIONS  
BASEBALL RACE  
ON THIS WEEK

Roaring defiance to the baseball world, five dens of Orange county Lions will swing into action this week in the first games of the Orange County Lions club's league, according to a schedule received here today.

Santa Ana, Anaheim, Fullerton, Orange and Brea are the dens entered in the circuit. Brea and Anaheim diamonds will be utilized for all matches. Two rounds will be played, each team meeting every other aggregation twice.

Santa Ana's initial contest will be played at Anaheim next Friday with Brea. A tilt with Anaheim at Brea will be the second encounter for the local lions. The schedule follows:

First Round  
Monday, June 20—Anaheim vs. Brea at Anaheim.  
Tuesday, June 21—Fullerton vs. Orange at Brea.

Friday, June 24—Santa Ana vs. Brea at Anaheim.  
Saturday, June 25—Anaheim vs. Fullerton at Anaheim.

Thursday, June 30—Orange vs. Brea at Brea.  
Friday, July 1—Santa Ana vs. Anaheim at Brea.

Wednesday, July 6—Fullerton vs. Brea at Brea.  
Friday, July 8—Santa Ana vs. Orange at Anaheim.  
Tuesday, July 12—Anaheim vs. Orange at Anaheim.

Wednesday, July 13—Fullerton vs. Santa Ana at Brea.  
Friday, July 15—Brea vs. Anaheim at Brea.

Tuesday, July 19—Brea vs. Santa Ana at Brea.  
Friday, July 22—Orange vs. Fullerton at Anaheim.  
Tuesday, July 26—Brea vs. Orange at Anaheim.

Wednesday, July 27—Fullerton vs. Anaheim at Brea.  
Thursday, July 28—Orange vs. Santa Ana at Brea.  
Friday, August 2—Brea vs. Fullerton at Anaheim.  
Thursday, August 4—Orange vs. Anaheim at Brea.  
Friday, August 5—Anaheim vs. Santa Ana at Anaheim.  
Tuesday, August 9—Santa Ana vs. Fullerton at Anaheim.

DUNTON FORDS  
SCARE GROCERS  
BUT LOSE, 4-2

"Tex" Bergman's Dunton Fords gave Bill Cole's undefeated Blauer Grocers a half a dozen thrills and chills at Lincoln park when play was resumed in the Santa Ana Night Baseball league last evening but were just unequal to the task of stopping the wild run penitentiary of last year's champions. The final score was 4 to 2.

Had not two of the Dunton outfielders misjudged long flys and allowed them to fall for timely hits, one a double and another for a single, it would not have been surprising to have witnessed a Dunton victory for these errors of commission were the indirect cause of no less than two Blauer runs.

Warren Sullivan's he-man clout to right in the second epoch, a home run in any night league park, gave the league-leaders a good start but the Grocers could not do much with Bergman thereafter except in the fatal fifth when the Texan's defense crumbled and let three scores percolate across the pan.

Ken Williams drew a life on Bowe's error and he scored when "Buck" Phipps' long fly fell safely for a double. The throw to the plate to catch Williams was late but Middlebrook got it in time to nip Phipps who attempted to reach third on the throw-in. Hilliard was safe on Prather's miscue. Jordan popped out but Schuchardt scored a moment later when Foote rapped a regulation double to right.

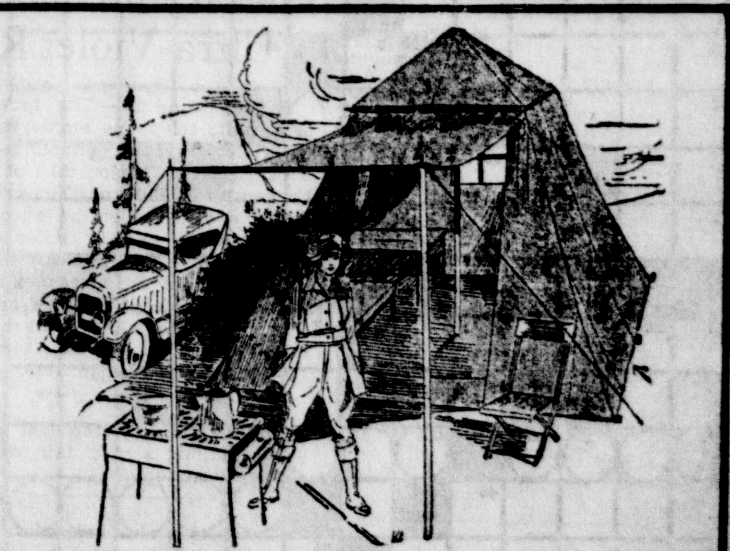

The Duntons made two without the assistance of a hit in the eighth. Bergman drew a walk and Jiles was safe on Cole's error. Both runners advanced on a wild pitch. Prather fouled out to Cole but Bergman and Jiles scored when Foote made a wild throw to first on Middlebrook's liner.

HEROES OF 10 CENT STORIES HOLD REUNION

NORFOLK, Neb., June 20.—Out of the shades of the vanished west, five surviving heroes of dime novel days have been called to rally on the plains they helped to conquer.

Diamond Dick, Pawnee Bill, Deadwood Dick, Cap'n Lute North and "The Evil Spirit of the Plains" will assemble here for what may be the last try of the frontiersmen.

Age has brought weight to the little figures which once swung easily into the saddles, and has dimmed the eyes which gauged with precision the targets of their rifles. And the years have brought new demigods to a generation which views Indian fighters and express riders as less real than transatlantic flyers.

Will Great Editors

But the famous five are to be heroes again for a day, as leaders of a welcome Norfolk plans for members of the National Editorial association when they stop here on a tour to the Black Hills June 15 to 25, following their convention at Omaha.

Exploitation of the frontier figures in dime novels of the pioneer era was based in each instance upon some actual exploit.

Diamond Dick, now Dr. Richard Tanner, Norfolk, physician, made a record ride of 5500 miles in 1893 without a change of horses, bearing an important message and his answer.

Deadwood Dick, today a Black Hills rancher, won scars and spurs as a pony express rider and Indian fighter during the Black Hills gold rush of 1876.

Pawnee Bill Owns Ranch

Last living leader of the Oklahoma boomers is Pawnee Bill, who as Maj. Gordon W. Little now owns a large buffalo ranch at Pawnee, Okla. He was the last partner of Buffalo Bill.

W. F. Carter was nicknamed by Indians "The Evil Spirit of the Plains," because of his rifle prowess, before he and Buffalo Bill organized the first wild west show and he became known as the greatest horseback rifle shot of all time. He is bringing from his ranch near Holdrege, Neb., a \$10,000 silver-plated saddle, prized reminder of his show days.

Cap'n Lute North headed the Pawnee Scouts, organized to protect construction workers from Indians during the building of the Union Pacific railway. At 81 he lives in Columbus, Neb.

COLORADO FRESHIES MAKE NEW DRESSES

FORT COLLINS, Colo., June 21.—The freshmen girls' dressmaking course, which is required in the home economics department at the Colorado Agricultural college here, has resulted in 104 new dresses, made of flannel, organdie, prints, tweed, gingham, rayon and linen, and ranging from one and two-piece sport costumes to dainty afternoon frocks.

Miss Beryl Dixon, the instructor, personally supervises the work of each individual girl taking the course, which includes the drafting and making of patterns as well as actual garments.

The pattern is first drawn, according to the student's measurements, on heavy paper, and is then transferred to tissue paper, and fitted. A trial dress is then cut from cheap material, to make sure the student understands the process and that measurements are correct. This trial dress is later finished for school or house wear, while the student is now prepared to make the actual dress.

This method of training enables the girls to copy any dress that they may see in the fashion magazines, and also teaches them to construct dresses on lines suitable to them, and according to good taste.

Minor princes and chiefs of India wear squeaky shoes to impress their barefooted subjects. A British firm specializes in shoes that squeak loudly.

A PROVERB PUZZLE

A proverb, true to life, is hidden in the circled squares of this puzzle.

HORIZONTAL—

1. Current. 6. Reddish gray. 12. Labors. 14. Strainer. 15. Verbal. 16. Evil. 17. To peer through a crevice. 18. Exists. 20. Prepared lettuce. 22. Point of compass. 23. Settlement. 26. To argue formally. 29. Son. 30. Wooden tooth on the rim of a wheel. 31. Circular ornament on furniture. 34. Merriest. 37. Morbidly dry. 38. Treatise. 40. Correlative of either. 41. Tidings. 42. Possesses. 44. Vocal sound. 47. Largest land plants. 49. Organs of aerial flight. 50. Cooked slowly in water. 51. Short intermission in school.

VERTICAL—

1. One apparently indifferent to pleasure or pain. 2. Trunk of human body. 3. Inlet. 4. Measure of cloth. 5. Like. 7. You and me. 8. To drink slowly. 9. To observe. 10. Occurrence. 11. Wigwag. 13. Constant companion. 15. The laurel tree. 17. Father. 20. Trap. 21. To putrefy. 24. To permit. 25. Rock containing metal. 27. E. T. 28. Trouser. 32. Vigilant. 33. Tree having tough wood. 34. Type of fuel. 35. Melodist. 36. Ringlet. 38. Sorrowful. 42. Tiny. 43. To attach. 45. Twitching. 46. Unit. 48. Point of compass. 49. X and L.

Congregational Church Members Favor Dry Laws

OMAHA, Neb., June 21.—The National Council of Congregational Churches has adopted a report of the commission on law enforcement, which pledged support to the Anti-Saloon League in the battle for enforcement of prohibition "as the very best plan for gearing church sentiment into the machinery of civic activities," and reaffirmed confidence in Wayne B. Wheeler, attorney for the league.

Declaring that one of the outstanding tasks of the church was to make permanent the moral victory achieved in the enactment of the eighteenth amendment, the commission suggested two fields for work, the schools and the churches.

Urging special emphasis on the educational possibilities, the report read: "Obviously, if the younger generation is not schooled in all phases of the subject, there will be reason to doubt the outcome of the fight. Youth should be acquainted with the physiological reasons for abstinence, and with the concrete advantages that accrue to the nation."

Tons of shoe polish are sent to Calcutta each year to supply the demand of the natives who take the greatest delight in polishing their shoes several times a day.

Legal Notice

NOTICE OF INTENTION TO APPLY FOR EXECUTIVE CLEMENCY Under Section 1421, Penal Code (COPY)

California State Prison at San Quentin, California, March 10th, 1927. District Attorney of the County of Orange, State of California.

Sir,

Please take notice that I, Sherman A. Moore, convicted of the crime of selling checks, in the Superior Court of the County of Orange, State of California, and sentenced to the State Prison at San Quentin, California, on the twenty-fourth day of December, 1925, to serve 1 to 14 years in the State Prison at San Quentin, California, for a pardon or suspended sentence. Kindly sign the acknowledgment herewith and return to Sherman A. Moore No. 42040, at San Quentin Prison.

Respectfully,

SHERMAN A. MOORE, (Signed) SHERMAN A. MOORE, STATE OF CALIFORNIA, County of Orange, ss.

I, Z. B. West, Jr., District Attorney of the County of Orange, State of California, do hereby acknowledge receipt of notice from Sherman A. Moore that he intends to apply to the Governor of the State of California for a pardon.

(Signed) Z. B. WEST, JR., District Attorney of the County of Orange.

THREE CHOCOLIT SODAS!

JACK LOCKWELL'S POLICE DOG

BY GILBERT PATTEN

The dog had started to follow the girl, but he halted in doubt when he saw Jack wasn't coming. "Come, Thor, old fellow," Jack called. The animal returned at once, placed himself at heel, and walked steadily behind his new master back to Thor's Loss. Jack took him into the kitchen, and fed him. Thor ate like a creature almost famished. He slept in Jack's room that night.

Mrs. Lockwell was thrilled when she heard Jack's story, the next morning. "This is my mother, Thor," Jack told the dog. "You must always protect her."

But when Thor saw Benton, the chauffeur, his hairs bristled, and a hoarse growl came from his throat. "Take him away!" cried the man, in terror.

Jack sprang forward and placed himself between the dog and the man. "Back, Thor! Back, sir!" he cried. "Down!" The animal seemed to relinquish its design on Benton with reluctance. "Where'd you get that beast?" chattered the frightened chauffeur. "I'll shoot him! I'll kill him!" "If you harm that dog," returned Jack, "I'll see that you get a good long stretch in jail!"

(To Be Continued)

# NEWS FROM ORANGE COUNTY TOWNS

## B. ARRANGES OR JULY 4TH CELEBRATION

HUNTINGTON BEACH, June 21.—Unusual features of the Huntington Beach July 4 celebration as planned by the entertainment committee of the chamber of commerce, headed by John Barlow, backed by the board of trustees of the city and other civic groups, include a baby parade, a parade for anything on wheels, a dancing contest, and editorial craft stunts by all men automobile men, according to tentative program released today.

Appropriation of \$800 has been made by the board of trustees with which to purchase cups awarded as prizes in the events, and for fireworks which will be set off at 8 p. m. on the last night of the celebration. That \$500 may be by the board for advertising was thought probable today.

At 10:30 a. m. with a parade open to babies from where the program will be every hour of the day until 8 p. m. when the last night will have been fired, according to the program. The complete program as tentatively decided upon follows:

10:30 a. m., baby parade, with five cups to be awarded, with Mrs. May Jackson, T. B. Talbert and Mrs. P. B. in charge; 11:30 o'clock, stunt oil men with two cups to be awarded, in charge E. J. Mossinger; 1:30 p. m. stunt by auto men with cups, L. F. Groover in charge; 2:30 p. m. stunt by fire trucks, in charge of Mr. Peters and Roy Callahan; 3:30 o'clock, band concert; 4 o'clock, dancing contest with cups, with C. N. Whitman and J. Young in charge; 4 o'clock, concert; 6 o'clock, athletic contests with five cups, Charles Foster, president of the city of trustees, in charge; 8 o'clock, fireworks in charge of Ed. Surber, F. H. McElfresh and J. V. Vavra.

It is also proposed to stage an baseball game between the county league leaders of the city and the local city team. The game will be held during the night starting at 5 o'clock and will be in rear of the city hall.

## COSTA MESA

STA MESA, June 21.—Mr. and Mrs. W. F. Holt and daughter, V. left last week for their new home in Victorville. The Hols have been in this section for the three years.

Mr. and Mrs. F. O. Ross and daughter, Kathleen, started for future home in Indiana Friday evening. A group of friends and neighbors spent the day at the Ross home.

Mr. C. Cameron is very ill at Orange County hospital, where he was taken last week.

Mr. C. Loomis, of Fairview avenue and Barnard Street, has been past week with influenza.

Mr. and Mrs. G. D. Wolfrey, formerly of Balboa, and Mrs. Nienker and daughter have moved into new home at 1529 North Main Street, next door to H. Kings.

Mr. and Mrs. Ray Carpenter moved to Eighteenth Street, where they are from Balboa.

Mr. A. R. Wellington has been ill past week.

A group of friends gathered at home of the J. R. Kings Thursday evening, surprising Prudence on, who left Friday evening for home in Hemet, where the C. J. Oleson is pastor of the Methodist church. Among those present were Mrs. Allen, Thelma, Martha Spaulding, Mary Spaulding, Veda Snow, Roy King, Snow, of El Segundo; Mr. Mrs. Raymond Eastman, Mr. Mrs. J. R. King and the Hon.

Rev. C. J. Oleson and daughter, Barbara, and son, Malvern, were visitors Friday evening. Oleson returned with her to Hemet, where she will stay the summer and expects to return in the fall.

A Ladies' Aid society of the munity church held the June meeting Thursday, this was an all-day session in connection with section 5, the sewing with Mrs. H. Clark, as secretary. All sections will meet with president at her home on Fairview avenue near Hamilton street today of this week, at 2 p. m.

Mr. and Mrs. Eastman entered with a dinner Sunday in honor of their fathers. Those present were Mr. and Mrs. Frank L. Lman, of Santa Ana; Mr. and J. R. King and Roy King, of Mesa; Veda and Jack Snow, El Segundo. Mr. and Mrs. H. Snow and son, Robert, of El Segundo, also were among the day visitors.

Mrs. L. E. Gardner and daughter, Jessie Vele, entered their Sunday school class with a party Monday evening at the home of Merle, of Alton street. Refreshments of arnelon were served to the wing: The Rev. Lyman Bay-

Mr. and Mrs. Raymond Eastman, Mr. and Mrs. Ralph Vele, Bertha Ewell, Simon Plaster, Mrs. Wright, Everett Speard, an Moore, and the hosts, Merle and Jesse Vele.

Photo Movie Cameras, Gerwings.

## Garden Grove Prepares For Paving

GARDEN GROVE, June 21.—The initial steps in a paving project were instituted this week, when petitions asking the board of county supervisors to initiate and conclude the necessary proceedings for the paving of Stanford avenue, between Euclid and Ninth streets, and Acacia streets, between Euclid and Ninth, were circulated among property owners along these two streets.

## CLAGSTONE TO GIVE CHAMBER SPEECH AT H. B.

HUNTINGTON BEACH, June 21.—Paul Clagstone, western manager of the United States Chamber of Commerce, will address the local chamber of commerce at its monthly meeting July 12 in the city auditorium, it was announced today.

Clagstone will speak upon business conditions throughout the nation as revealed in a survey conducted by the United States Chamber of Commerce and presented at a recent meeting of the organization in Washington.

In order to accommodate Clagstone, the monthly meeting of the body was postponed from July 8 to July 12.

## Seven Fined By Beach City Judge

HUNTINGTON BEACH, June 21.—Five intoxicated persons, two reckless drivers and one woman alleged to have had intoxicating liquor in her possession, were hauled before Recorder Chris P. Pann yesterday morning following a record week-end of activity in the police department.

Each of the persons charged with intoxication was released on the payment of \$25. One reckless driver was fined \$150 and the other \$40. The woman having liquor was fined \$300.

Those arrested were D. A. Williams, of Long Beach, who pleaded not guilty to drunkenness. His trial was set for Friday at 2 p. m.; Ross Douglas, Long Beach, drunk, fined \$25; Mr. and Mrs. Johnson, of Newport Beach, reckless driving, fined \$150; Lillian M. Hudson, of Huntington Beach, possession, \$300; J. M. Bridges, of Long Beach, drunk, \$25; R. A. Fullerton, of Kansas, drunk, \$25; and S. L. Morris, of Sunset Beach, reckless driving, \$150.

## ORANGE

ORANGE, June 21.—Mrs. W. T. Murphy, of West Frankfort, Ill., and her daughter, Miss Jane Murphy, of East St. Louis, Ill., and Miss Thelma Mitchell, of Mesa, Ariz., are visiting Mr. and Mrs. D. Nesmith, of 176 South Cambridge street. Mrs. Murphy is a niece of Mrs. Nesmith and Miss Mitchell is the daughter of Mrs. Nesmith's nephew.

Mr. and Mrs. John Fletcher entertained Sunday at a Father's day dinner. Those enjoying it were Mr. and Mrs. C. P. Pyle, Mr. and Mrs. W. C. Pyle, Mr. and Mrs. Osmann Pyle, Mr. and Mrs. Argus Dean and two children, Mr. and Mrs. Glen Marks and two children, of Los Angeles, and Arthur Pyle, of Pasadena.

Mr. and Mrs. F. E. Hallman are attending the commencement exercises at Stanford. Their daughter, Miss Lois Hallman, is one of the graduates. Their other daughter, Frances, will remain in Palo Alto to attend summer session at Stanford and Miss Lois will return home with her parents.

Bob Steele went to Los Angeles Sunday to meet his sisters, Miss Martha Steele and Miss Frank Steele, of Denver, who will spend the summer with their mother, Mrs. R. C. Steele.

J. F. Spotts and daughter, Miss Emily Spotts, and Lawrence Pyle were guests Sunday at a chicken dinner at the John L. Spotts home in Riverside. The dinner was in celebration of two birthday anniversaries.

B. J. Fletcher is enjoying a week's vacation from his duties at the National bank. He is spending most of the week at his ranch in Nuevo. Newell Moore is assisting at the bank during his absence.

Mrs. B. E. Garrison and daughter, Rosemary, have given up their home at 213 South Glassell street, and moved to Eighth and Vine streets, Riverside, to be with Dr. Garrison, who has a service station in that city.

Mrs. L. E. Gardner and daughter, Miss Maude Gardner, of 193 North Olive street, will leave Wednesday for Sacramento, where they plan to spend their vacation.

Mr. and Mrs. Albert Dowden and family, of Fullerton, and Mrs. Mary G. Mahaffey, of Stockton, were guests Sunday afternoon of Mrs. Anna E. Dowden, of East Chapman avenue.

Miss Faye Bortz and a party of Santa Ana friends enjoyed a grunton hunt at Serra Saturday night. They were successful in capturing a number of the elusive fish.

Mr. and Mrs. Caesar Stringer and family, of Anaheim, were dinner guests Sunday of Mrs. Rona Newcomb.

## BAL. TENNIS COURTS URGED IN H. B. TALK

HUNTINGTON BEACH, June 21.—More baseball and tennis fields as well as children's supervised playgrounds are necessary for Huntington Beach, the chamber of commerce was told at its regular Monday luncheon meeting at the Rotary Sweet shop by George W. Borden, western representative of the Playgrounds and Recreation Association of America.

Cities throughout the nation are now offering playground facilities for adults as well as children, stated Braden. With the advocacy of a five-day week for workers, the problem is what to do with the two days' vacation each week, said Braden. Students of the situation are not concerned over the economic outcome should the five-day week be generally adopted, but are concerned with the problem of providing recreational facilities to keep the workers occupied while not at their tasks, he said.

A community must have enthusiasm for obtaining recreational advantages before any definite good can be obtained, the speaker explained to the chamber members. That the chamber of commerce and the Parent-Teacher association will be asked to take some action toward sponsoring a campaign to obtain more playground facilities for the community appeared probable following Braden's talk.

## LA HABRA

LA HABRA, June 21.—Mr. and Mrs. Mialo Stephens (Luella Mae Thompson) were surprised by 50 friends and relatives from different towns of Orange county Saturday evening. Seizing the young couple with the former's parents, Mr. and Mrs. L. C. Stephens, the conspirators put them on a gaily decked truck with various conspicuous signs and with tin can and cowbell music the party motored through several nearby towns stopping at last at the home of the bride's father, Peter Thompson, at Orangehorne, where a reception and dance was enjoyed by the assembled crowd.

The J. B. Card club met Friday evening at the home of Mrs. W. F. Heiden. Roses were chosen by the hostess to decorate the rooms.

Present were Mr. and Mrs. Barker of Upland, Mr. and Mrs. George Schlagenhauff of Brea, Mr. and Mrs. Bruce Stanford, Mr. and Mrs. Louis Muchow, Mr. and Mrs. William Kelly, Mr. and Mrs. Grady Hicks of Whittier, Mr. and Mrs. J. A. Chennin, Mr. and Mrs. W. Threlkeld and Mr. and Mrs. Heiden.

Varicolored mixed flowers were chosen by Mrs. Ray Francis Saturday evening when she entertained the Valde club at her home on Palm street. A 7 o'clock dinner prepared by the hostess preceded an evening at "600" with prizes going to Mrs. Edgar Leutwiler and Louis Muchow, first, and Mrs. Claude Ridgeway and Jack Chennin, consolation. Her guests for the evening were Mr. and Mrs. Rollo Walling, Mr. and Mrs. Louis Muchow, Mr. and Mrs. W. F. Heiden, Mr. and Mrs. J. A. Chennin.

Mrs. D. L. Mossberg entertained with a beach party in observance of her son's ninth birthday at Seal Beach Friday. Those asked to help Ernest celebrate were Mrs. O. C. Harpster and son, Max, and daughter, Betty, Wayne and Lawrence Roberts, Eugene Tanquary, Eddie Mossberg of Santa Ana, Betsy and Ola Kelton, Mrs. Mossberg and the honoree.

Mr. and Mrs. C. L. Crumrine entertained with two tables of bridge at their home Friday evening. Their guests were Mr. and Mrs. A. V. Douglas, Mr. and Mrs. Walter Hole, Mr. and Mrs. Paul Pratt and Mr. and Mrs. Crumrine.

Mr. and Mrs. C. Ross and Mr. and Mrs. Roy Ross and Elmer and Harold Ross returned to their home in Home Acres after a three months' stay with relatives and friends in Pittsburgh, Pa.

Mr. and Mrs. Freeman Davis are spending their vacation at Three Rivers in the northern part of the state.

Mr. and Mrs. J. A. Stogdill and son, Edgar, are spending their vacation at Seattle.

Hugh Hampton graduated Monday evening from Stanford University. He plans to work and then return for two years of post graduate work.

Mrs. Ada Spearin, of San Diego, spent the week-end with her daughter, Mrs. C. W. Rowley.

Nela Oliver, of Ventura, spent the week-end with her parents, Mr. and Mrs. J. A. Oliver.

Mr. and Mrs. W. E. Morlan and family with Mr. and Mrs. W. Sharon and family spent yesterday and today at Lytle Creek canyon.

Mr. and Mrs. L. C. Stephens and daughter, Mrs. Mialo Stephens returned the last of the week from a two weeks' vacation at Lytle Creek, Glen Ivy, Hodges lake and Forest Home.

Mr. and Mrs. Ed Klusman returned last week from several weeks stay with relatives in St. Louis.

Mr. and Mrs. E. E. Dieckman spent Monday evening with friends in Long Beach.

The summer bazaar of the Baptist church will be held in the church basement Friday afternoon and evening.

Mr. and Mrs. L. C. Stephens and Mr. and Mrs. Mialo Stephens were guests Sunday at the George Hunt home in Olinia.

Mrs. C. Snoddy returned to her home Sunday from the Murphy Memorial hospital in Whittier, where she underwent a major operation.

## OIL WELLS MAY BE DRILLED IN HUNTINGTON BEACH PARK; BOARD NEGOTIATES FOR LEASE

HUNTINGTON BEACH, June 21.—That the city park, which since the beginning of the oil development in the community has stood as a garden spot of beauty among the ever increasing forest of derricks, may be leased for drilling purposes by the city, loomed as a possibility at the adjourned session of the board of trustees last night.

The board authorized A. J. The-dick, city attorney, to negotiate with the Huntington Beach company for a lease on the park for drilling purposes with a clause included in the lease to the effect that should the oil flow ever cease, the plot would again be used for park purposes.

It is believed that in this way, the city will be able to get around a provision in the deed to the city that the tract shall be used for park purposes only.

Lights to be Painted  
Improvements about the city contemplated by the board at the meeting include the painting of all light standards for which bids are to be advertised for, and the installation of half a mile of sewer in the vicinity of block 810 to cost between \$2000 and \$3500. Merwin Rosson, city engineer, was ordered to prepare plans and specifications for the work. The board also authorized the installation of a pay telephone booth in the municipal camp ground on Ocean avenue.

According to a contract presented by the telephone company for the installation of the booth, the apparatus will cost the city nothing and 10 per cent of the receipts will be given to the city. The only requirement is that the city furnish a suitable booth for the telephone.

Land Found Part of Street  
Two small parcels of parking in the center of Seventeenth street on the south side of the subway, heretofore thought to belong to the Huntington Beach company, have been found to be part of the street, and ordered cleared for street uses.

V. B. Gratula was the successful bidder for the disposal of trash in the city. Gartula's bid was \$235 per month and was accepted as being the lowest submitted.

The sum of \$800, recently voted to defray expenses of the celebration on July 4, was ordered turned over to the chamber of commerce.

Low Hill was hired for the engineer's department. Hill has been employed by the Southern Counties Gas company.

Boat Permit Given  
Live bait boats to be operated by George Du Bordieu, of Long Beach, from the landing on the pier will be licensed at the rate of \$50 per year. It was decided. Du Bordieu was granted a five-year exclusive contract on the use of the landing for live bait boats.

The final reading of the ordinance setting the salary of the city recorder at \$125 per month and making the salary of the city attorney dependent upon the board's decision, was passed.

That many of the ornamental lights about the city become broken and are not immediately repaired and that a strict watch should be kept on them, was the consensus of opinion of the board members. R. F. Riley, employee of the street department in charge of inspecting the lights, was ordered to appear before the board at its next meeting and explain why the lights are not repaired.

## H. B. Police Find \$183.30 On Vagrant

HUNTINGTON BEACH, June 21.—S. McCall, who is being held in the city jail on a charge of vagrancy, had \$183.30 sewed up in the lining of his coat when arrested, according to V. P. Mohr, motor officer.

When asked how he obtained so much money, McCall replied that he gathered junk and sold it as he went his way about the country.

When arrested he had about five pounds of copper and a bundle of old rags in his possession. He was ordered to the streets and to give additions to his collection when arrested.

## GARDEN GROVE

GARDEN GROVE, June 21.—A birthday party was given recently at the home of Mr. and Mrs. Fred Darch in honor of their daughter, Miss Ada. Among those present were Mrs. Edith Fitzhugh and Miss Virginia Fitzhugh, of San Pedro; Mrs. Margaret Barkley of Santa Ana; Homer Fuller and William Hengolds, of Huntington Beach; Mr. and Mrs. Oleon. Mr. and Mrs. Crandell, Clyde Hopewell, Mrs. Etta Chambers, Miss Edna Clark and Miss Mae Marsh.

Mr. and Mrs. D. E. Fowles, of Long Beach, were callers at the home of Mr. and Mrs. H. B. McLeod on Wednesday.

Mrs. J. M. Woodworth was a Los Angeles visitor Thursday. Miss Mina Launder, of Los Angeles, spent Thursday with her parents, Mr. and Mrs. Frank Launder.

Mr. and Mrs. Osmon Smith and daughter and son of St. Lawrence, S. D., accompanied by their daughter, Miss Evelyn, of Los Angeles, were dinner guests of Mr. and Mrs. Samuel Wright Thursday evening.

Mr. and Mrs. Samuel Wright visited from Friday until Sunday with relatives in Los Angeles.

Mr. and Mrs. R. L. Buehler, of Redlands, and Mr. and Mrs. Charles Perry Clark, of Riverside, were Sunday dinner guests of Mr. and Mrs. Loyd Wright. In the afternoon they all motored to Balboa.

Mr. and Mrs. W. A. Wheeler have departed on a three weeks' trip to Sibley, Iowa.

Mr. and Mrs. M. M. Page, of Los Angeles, and Mr. and Mrs. George Tournat visited at the W. S. Reed home Sunday.

"Buy Newcomb's Big N. Mash."

Pathe Movie Cameras, Gerwings.

## NEW RICHFIELD OIL WELL GOES ON PRODUCTION

ATWOOD, June 21.—Another good well was added to the list of Richfield producers last week, when the Associated Oil company brought in its Bayha 5-A. Drilled to a depth of 4355 feet, the deep well came in at 150 barrels with a good gas pressure, which increased the flow to 840 barrels on Sunday, with prospects for a further increase. The oil is clean, with a gravity of 23.7 degrees.

Bayha 5-A is an offset to the Continental's Pyne No. 3 and is by far the best well which has been put down on the Bayha ranch, the other deep sand well, Bayha 1-A, making only 35 barrels, while the two top sand wells, No. 2 and No. 3, are making about 20 barrels each.

The General Petroleum brought in its Mullen No. 4 Friday with a production of 390 barrels of 23 degree gravity oil, which is flowing. This well is near the Superior Etchandy No. 1, which came in recently with the same production.

Several new locations have been made and new rigs are going up. The Superior Oil company has a new location, Etchandy No. 2, on which work will start within the week.

Featherstone and Preston have materials on the ground for a well on Emory Francis' property. This is on the site of the old Richfield-Yorba well, and is considered by some experts to be one of the best locations in the field.

Two new derricks are going up near Placentia, one by the Pan-American and one by Herndon and Hunter.

E. L. Cragen is planning to deepen his Richfield No. 1 on the Soderberg property, across Richfield Road from the Bayha lease. The well has much the same history as Bayha 1-A—a little oil, more water and mostly trouble.

## WESTMINSTER

WESTMINSTER, June 21.—A party of Westminster people spent Sunday at Glen Ivy hot springs, where the day was enjoyed in the plunge and in hiking. Those in the party were Mr. and Mrs. L. Penhall, of Santa Ana; Mr. and Mrs. Burns and Raymond Burns, of Santa Ana; Mr. and Mrs. H. Penhall, Mr. and Mrs. H. Mansperger, Mr. and Mrs. O. J. Day and family, Mr. and Mrs. R. Penhall, Mr. and Mrs. Francis Penhall, Delbert and Marvin Penhall, Mr. and Mrs. Clyde Day, Annabelle and Herbert Day, Mr. and Mrs. Ralph Baxter, Jean and Luella Baxter and Mr. and Mrs. Charles Parr and children.

Those attending the surprise party from here given Friday evening for Carl Bergman at the home of Miss Merle Parr, of Smeltzer, were Ruth Melvin, Edna Goble, Lillian Armet, Helen McCoy, Robert Edwards, Harry and Douglas Basse, Russell Walker, Craig Hays, Howard Bould, Doyle Stockton, Jesse Haxton and Carl Bergman.

Carl Bergman, nephew of the Rev. R. W. Weld, who has been staying at the Weld home, left for his home in Tulsa Saturday morning.

A father and son night was held by the Pioneer boys at the church hall Friday night. The evening was spent in playing basketball and other games, with ice cream and cake served as refreshments.

James Upton, who lived in Westminster several years ago and whose home is now in Barstow, visited here recently.

L. D. West and Clyde West and children, of San Diego, spent the week-end with Mr. and Mrs. Ed Larter.

Mrs. Myrtle Montgomery and son spent Sunday at the J. W. Montgomery home.

Mr. and Mrs. Hotchkiss, of Los Angeles, were Sunday guests of Mr. and Mrs. F. W. Williams.

Mr. and Mrs. J. L. Knapp and children spent Sunday at Orange County park.

Mr. and Mrs. J. L. Cruise and children, of Ventura, were dinner guests Saturday of Mr. and Mrs. West. Mrs. J. B. Young and daughter Josephine, of Redondo, were week-end guests at the West home.

Mr. L. W. Conn, of Los Angeles, was a week-end guest at the H. H. Sands home, Mr. and Mrs. Sands, Naloma Sands and Mrs. Conn spent Sunday at Orange County park.

Mr. and Mrs. L. R. Stanley, accompanied by Mr. and Mrs. Victor Wilson, spent the week-end at San Juan hot springs.

Mr. and Mrs. Holland and family, of China, were guests Sunday at the home of Mrs. Lillie Price.

Mr. and Mrs. R. H. McClellan, of Glendora, and Mr. and Mrs. S. Stroenider, of Covina, spent Sunday at the home of Mr. and Mrs. W. C. Hannigan.

Mr. and Mrs. Spears, of Huntington Beach, were Saturday evening guests at the Hays home.

Mr. and Mrs. Roy Bechtal, accompanied by Mrs. A. Bechtal and R. V. Bechtal, of Santa Ana, spent Sunday at Capistrano Beach.

Mr. and Mrs. Harry Mansperger visited George Mansperger at the Arlington hospital and report his condition as being much worse the past few days.

Mr. and Mrs. Morgan and children spent Sunday at the home of Mr. and Mrs. Charles Price, of Hynes. Mr. and Mrs. Percy Lawrence visited Mr. and Mrs. Joe Neusbaumer, of Riverside, Sunday.

Mrs. J. F. Patterson spent Saturday and Sunday at the home of Mrs. F. D. Turner.

Mr. and Mrs. Gordon Edwards and Mrs. Leo Sargent, of Whittier, were Sunday guests of Mr. and Mrs. J. Edwards.

Mr. and Mrs. L. D. McDaniel, accompanied by Mr. McDaniel's father and mother, have left for their vacation in the northern part of the state.

Mrs. Branson, Mrs. W. J. Cozad, Linda McDaniel and Simeon Cozad visited Sunday at the home of Mrs. Scott in Los Angeles Sunday.

Mrs. H. P. Hanson, of Oakland,

## Machine Crashes Into Store Glass; Driver Disappears

ORANGE, June 21.—E. T. Lee, North Glassell street merchant, and local police officers are searching for the driver of a roadster which ran over the curb and sidewalk and into Lee's window, Sunday.

The driver of the machine escaped before anyone could learn his name, but someone secured the number of the car and it is hoped to learn the identity of the culprit in that manner, according to E. E. Kirkwood, captain of police, who investigated the affair.

According to the story told by bystanders, the driver of the car was unable to stop his car when he attempted to park in front of the store. The machine went over the curb and stopped in the middle of the sidewalk. When the driver attempted to reverse his engine to back off the sidewalk, he is thought to have placed his car in a forward gear by mistake.

The last part of the meeting will be handled by the county executive and will have to do with discussion of the summer camp, county fair and fall and winter programs. Each year all of the Scoutmasters gather for one night a week for eight weeks to receive instruction and training in the technical part of scouting and during the rest of the year these monthly meetings are held to discuss activities and exchange ideas.

Stanley Mansur, chairman of the Orange scout committee said today: "We are still way short on our Boy Scout campaign quota, and must do much to keep the Scout program going or we are bound to handicap these men who are so willingly giving of their time and money as Scoutmasters and committee men."

## Fullerton Gives Welcome to 17

FULLERTON, June 21.—Seventeen families moved to Fullerton during the past two weeks, according to an announcement made public today by the entertainment committee of the Fullerton Chamber of Commerce, of which Waldo O'Kelly is chairman.

The new residents are as follows: H. J. Brownfield, 805 North Spadra, from Los Angeles.

C. E. Forcht, 130 West Maple, from Los Angeles.

Frank Ledin, 415 South Spadra, from Peking, Ill.

N. H. Erwin, 123 Glenwood, from Huntington Park.

E. I. Lewis Jr., 621 North Pomona, No. 2, from La Mirada.

H. M. Arrighi, 232 West Maple, from Anaheim.

Mrs. Ethel Parks, 407 1/2 West Amerigo, from Tyrone, Okla.

C. S. Smith, 120 West Wilshire, from Long Beach.

R. Raymond, 1108 East Whittier, from Los Angeles.

W. A. Bortz, 151 North Cornell, from Montebello.

C. C. Chandler, 341 West Commonwealth, from Los Angeles.

H. R. Arkley, 235 1/2 West Wilshire, from New Meadows, Ida.

A. C. Latschak, 1900 West Commonwealth, from Placentia.

Ida Schewe, 221 East Elm, from Anaheim.

Mrs. J. W. Davis, 540 Malvern, from Los Angeles.

T. H. McCabe, 243 East Amerigo, from Butte, Mont.

Clark Bush, First National bank, from Long Beach.

## New Committees Named By Class

**EVENING SALUTATION**  
Where is the true man's fatherland?  
Is it where he by chance is born?  
Doth not the warning spirit scorn  
In such scant borders to be spanned?  
Oh, yes, his fatherland must be  
As the blue heaven wide and free.

Is it alone where freedom is?  
Where God is God and man is man?  
Doth he not claim a broader span  
For the soul's love of home than this?  
"The Fatherland," by James Russell Lowell.

### AMERICANS, WE SALUTE YOU!

The Register congratulates and extends the hand of fellowship to the 27 newest Americans in Orange county, members of the class which, in superior court, yesterday, won the spurs of citizenship.

You, fellow citizens, are deserving of approval for the spirit that moved you to cast your lot with the country of your adoption. It is good that you should be "of" as well as "in" the land of your choice; that its cause should be your cause, its problems your problems, its future your future. That makes for mutual benefit; benefit to you, for it gives you a voice in establishing the conditions under which you live; benefit to the country, because good citizens, such as you have sworn to be, are always a national asset. It gives you an added and personal interest in America; likewise it gives America an added and personal interest in you.

We are glad you are no longer aliens. There is an uncomfortable sound to the word "alien." It rings unpleasantly to the ear. There is an unneighborly, unfriendly something about the connotation of the word. But all that is changed now for you. You are "one of us." And, we repeat, your step does you credit.

You are deserving, too, of rich praise and commendation for your achievement in mastering the requirements of naturalization. It was no small feat. It attests your determination, your industry, your intelligence and strength of character; all qualities upon which solid citizenship is based. Sometimes it may seem that our government is a little severe and unreasonable in the demands it makes of its adopted sons and daughters, before admitting them to the family circle. But remember that American citizenship is a sacred privilege, to be conferred upon only the tried and true. By conquering the obstacles in your path you have proved yourselves worthy of the best traditions of American life.

For this there is ample reward awaiting you. Know, fellow citizens, that you have come into that matchless heritage: "life, liberty and the pursuit of happiness." Know that when you repeated the oath, yesterday, you linked yourselves to the greatest nation on the globe—the most marvelous government ever devised. Your country is a country born under the travail of oppression to an appreciation of liberty; nurtured on the heart's-blood of embattled heroes; risen to wondrous heights of honor and renown. It is a land worth any sacrifice you might be called upon to make for it—worth fighting and dying for, as so many of its brave sons have fought and died—worth living for, as true and loyal citizens, enjoying the privileges and meeting the duties and responsibilities that come to you. When you pledged yourselves to Old Glory, yesterday, you gazed upon the most gallant flag that has ever floated in the heavens; emblem of a proud and free people, who now take you to their heart.

Americans, we salute you!

### POOR FARMS, FINE FORESTS

A few years ago much anxiety was expressed about the growing number of abandoned farms in New York state and other sections of the country. It has since been discovered that those farms were wisely abandoned. Their soil was not really fit for profitable farming. Nevertheless they had their usefulness and it was discovered.

In the State of New York alone 2,147,102 acres of unprofitable land have been turned into public parks and forests. Private owners of land are setting out forests. The state forestry department expects to set out 30,000,000 trees this year and 40,000,000 in 1928.

What with private and municipal planting, the forest situation in that state is looking up rapidly. It is a development that carries a useful hint to other regions of poor farming land which is often fine for tree-growing.

### COSTA MESA TO BEAUTIFY

Costa Mesa, like a good many other progressive communities of the country, has decided to "dollar up." At a recent meeting, which was attended by representatives of every organization in the district, it was decided to take steps to beautify the landscape all around about. Plans of Costa Mesa include the planting of beautiful trees, shrubs and flowers throughout the district, the collection and destruction of rubbish at stated intervals and the washing of streets and sidewalks.

Costa Mesa is one of the fastest growing parts of the Southland and her plans, if carried out in a systematic manner, will not only make the community attractive to prospective citizens but to residents as well. People who live in an attractive community, with beautiful growing things ever present, are a great deal happier and better than those whose surroundings are unattractive.

The idea of beauty is being enlarged upon by large and small business concerns all over the country. Factory structures that formerly were just so much mortar and brick now have green vines on them, with flower beds, shrubs and water pools scattered about the premises. A tour of Orange county will reveal that a great deal of time and money has been spent in making drab buildings more attractive to the workers as well as to the general public.

Any idea that makes for happier and better people should be encouraged, and Costa Mesa's plan should have the encouragement of every citizen of the community. Where the various organizations of any community get back of a thing the costs are surprisingly low and Costa Mesa will find that the amount expended will be small indeed in comparison with the benefits received. Costa Mesa will find that more people will stop to inquire about the town

and that more people will remain to buy and make homes there.

Every community in Orange county should strive constantly to make itself more attractive. Orange county has so much that is beautiful that it would not require a great deal of effort to make this section one of the most beautiful spots in the United States. Trees should be planted along all the roads of the county, and after they are planted they ought to be preserved and nurtured.

And the so-called minor highways should receive as much attention in this respect as the main thoroughfares, for many people prefer the quiet roads to the heavily traveled avenues when seeking rest. Flowers and shrubs also should be planted at vantage places, the idea being to make the entire county so beautiful that tourists as well as residents would want to stay here all their days.

### No Help in Forecasting

San Francisco Chronicle

A conviction that when it comes to forecasting the course of things in China one man's guess is as good as another's is strengthened by the unusually clarifying article of Edwin Deek's Harvey in the Yale Review. The writer, who spent many years in China, and was himself a first-hand observer of the rise of the Nationalist movement, is certain on one point: It is that Sun Yat-sen, "the sincere and the naive," though dead is still the dominant figure, and his doctrine the motive power in the crisis.

Sun's three fundamentalisms, which have won such widespread support in China, are racial unity, popular sovereignty and improved living conditions. Sound enough in the abstract but of seemingly strange application. For instance, in the interest of racial unity Sun urged an increased birth rate in a country already gasping under the burden of supporting its population.

The chief result of the agitation for popular sovereignty has been a bitter anti-foreign feeling. Great masses of the population are totally incapable of grasping the meaning of self-government. "In a huge and unwieldy agrarian population scarcely one per cent have ever heard of such a thing as the ballot box."

The schemes for economic reform presuppose access to capital beyond any present possibility for China, official disinterestedness greater than obtains in the most enlightened Western countries and a popular understanding which is as remote from this subject as from political freedom.

Many able Chinese minds are working for the resurgence of their country, and in this they have the good will of other countries. The industry of China's common man and the acumen of her merchants are constant driving forces which will find her a way out of her distresses.

Which way? "Through all her vicissitudes," Harvey says, "China is still intangible." The more one knows about China the less likely he is to prophesy.

### Arizona Will Build Link

Riverside Press

Indications are that by the time the bridge is completed over the Colorado between Blythe and Ehrenberg the Sunbelt trail, both in California and Arizona, will be in such good shape as to offer motorists from the east the most convenient and attractive route into California.

The Arizona legislature that recently adjourned, made an appropriation of \$150,000 for the Arizona part of this road. The bill provides as follows:

"There is hereby appropriated out of the general fund of the state of Arizona, from any money not otherwise appropriated, the sum of \$150,000—\$75,000 to be available during the fiscal year 1927-1928, and \$75,000 to be available during the fiscal year 1928-1929, to be used for the construction of a highway from Ehrenberg to Wickenburg at the direction and under the supervision of the state highway department."

The law is subject to referendum, as are similar laws in California, but there has been no suggestion of any movement for a referendum; and it looks as if the money would soon be available. In California the state highway commission is planning on some important work on this road during the next fiscal year. In general the outlook for the Sunbelt trail was never better.

### Health Topics

By DR. MORRIS FISHBEN  
Editor of Journal of American Medical Association

**EDITOR'S NOTE**—How can you tell whether or not your child will grow up to achieve greatness? This is the third of a series of articles concerning the latest scientific findings on childhood manifestations of genius.

#### GENIUS—BORN OR MADE?

Persons who achieve eminence in life are distinguished in childhood, ordinarily, by behavior that indicates an unusually high intelligence. This conclusion was reached by the psychologists of Stanford university who analyzed the records of 300 eminent men and women in an attempt to find the key to success.

Voltaire wrote verses "from his cradle." The author Coleridge could read a chapter from the Bible at the age of three years. Mozart composed a minuet at the age of five. Goethe, at the age of eight, produced literary work better than that of most adults.

A study of the individual records of these geniuses brings out many more records that are astounding. Oliver Cromwell entered Cambridge at seventeen. Ulysses S. Grant had a passion for horses when a boy, riding about alone at eight years of age. Before he was ten years old he drove forty miles from Georgetown to Cincinnati and brought back a load of passengers on the return trip. At the age of eight, Garibaldi saved a woman from drowning and at twelve he saved several boys whose boat had capsized.

William Harvey, who discovered the circulation of the blood, entered Cambridge at sixteen and received his B. A. degree at nineteen years of age. The musician Haydn beat time for music at the age of six, sang several masses at the same age, and between the ages of six and eight learned in one lesson to play well on the kettledrum. Balzac composed juvenile comedies before he was eight and was passionately devoted to mature reading while still a school boy.

The accounts of the early years of these great men are full of examples of extraordinary mentality. In their reported interests, in their school standing and progress, and in their early production and achievement, these children were in general phenomenal. Their achievements were definitely foreshadowed in their early behavior.

As a result of this portion of their study, the California investigators are convinced that we are probably warranted in expecting superior adult achievement whenever the intelligence quotient of the child is well above the average, but that we may not be warranted in expecting a world genius even if a very high intelligence is found, for there are other factors involved in achieving greatness besides an essential degree of intellectual capacity. Tests of intelligence do not measure the spontaneity of intellectual activity nor differentiate between great ability and unique ability. The tests do show that the extraordinary genius who achieves the highest eminence is also the gifted individual whom intelligence tests may discover in childhood.

Tomorrow: The Factors of Genius.

## The Leaning Tower

## God's Great Outdoors

Pasadena Star-News

To him who in the love of Nature holds communion with her visible forms, she speaks a various language; for his gayer hours she has a voice of gladness, and a smile and eloquence of beauty; and she glides into his darker musing, with a mild and healing sympathy, that steals away their sharpness, ere he is aware.

Every lover of nature has corroborated the beautiful sentiments of America's beloved poet. California, as spring has advanced and as summer has come upon the threshold, has been, and is surpassingly beautiful. Abundant rains during the winter brought vegetation and flowers into glory seldom seen even in this state of natural glories.

Listen to the Call of the Open Road. There is beauty, and grandeur, and glory out there where the genial sun shines, unshadowed by piles of brick, or mortar—out where brooks babble merrily, and birds sing cheerily, and the breezes come creeping softly and caressingly over tired brows. There is rest out there. There is delight out there. There is relaxation, rejuvenation, revitalization.

Stock up the family automobile. Go out for a week or more. Or over the week-end, if no more. If you can't go now, plan to go over the week-end including the Fourth of July, which comes on Monday this year.

The automobile is one of the greatest boons of the age, in affording pleasure, rest and recreation to the weary worker. It is tonic and health giver to millions of Americans. Unquestionably the health of the nation has been bettered greatly since automobiles came into general use, taking men, women and children out of stuffy rooms into the pure air of the great outdoors. Heed the Call of the Open Road!

## Worth While Verse

### THE WATER LILY

Beneath the shadow of the pines,  
The haunt of owl and whippoorwill,  
Deep in the ancient woodland's heart  
By day the water-beetles skipped,  
The lonely lake lay dark and still,  
The heron stalked the reedy edge,  
By night among the lily-pads  
The bullfrog rumbled in the sedge,  
And in a clear and quiet place  
I saw the drowned Ophelia's face.  
Caught in a net of water-weeds  
And upturned to the moon it lay,  
Star-like against the inky depths,  
All the love-madness washed away;  
Was it the high bright moon that made  
A mirror of the grassy pool,  
Was it a water-lily half  
Unclosed and waxen-white, and cool?  
Nay, in that dim secluded place  
I saw the drowned Ophelia's face.  
—Minna Irving in the New York Sun.

Pickpocket (in fog)—I've just landed a gold ticker—softest guy I ever handled.  
Confederate (wrathfully)—It's mine, you idiot. And here's yours.—Passing show.

### JUST ISN'T DONE

"Baby's getting on wonderfully—I'm sure she'll be able to walk soon."  
"Do you think it's worth the trouble of teaching her? Hardly anybody walks much nowadays."—Everybody's Weekly.

## Barbs By Tom Sims

Speaking of wars, we wonder who's going to win the legion convention in Paris?

Profanity is forbidden in Italy. No blue talk from the Black Shirts.

There are 8,000,000 pianos out of tune in this country, it was revealed at a Chicago music trades convention. These optimistic gentlemen are always making us revise our figures.

## Little Benny's Note Book

by Lee Page

I had 13 jelly beans in my pocket in school today, and I was going to save them till after school and eat them comfortable and then I wondered if I could put them all in my mouth at the same time and eat them without Miss Kitty seeing me.

And we started to have language, and I kept on sticking the jelly beans in my mouth till they were all in there, and just after I stuck the 13th one in who did Miss Kitty call on but me, saying, Benny Potts, stand up.

Wich! did, thinking, Good nite, holy smokes, this is a heck of a time to get called on, darn the luck, gosh shang it.

Wat is a noun? Miss Kitty sed. Being a chinty question if I hadn't had anything in my mouth but being as hard as any other one with my mouth full of 13 jelly beans, the result being I jest stood there, Miss Kitty saying, Well, there's nothing to look so worried about, is there?

Proving how much she knew, and I kept on standing there feeling afraid to swallow without chewing like I mite of with one jelly bean but not 13, and jest then I had to swallow without swallowing any jelly beans, and Miss Kitty sed, My goodness, Benny, do you feel sick?

Being a idee, and I started to shake my head Yes and jest then I would of choked if I hadn't of swallowed, and 13 jelly beans flew out of my mouth like new and I quick ate the 13th on account of not being able to think of anything else to do, and Miss Kitty made me stay in a half a hour for eating in class and a half a hour for telling a lie, besides losing 13 jelly beans.

## In the Long Ago

14 Years Ago Today  
From the Register Files

JUNE 21, 1913

W. Faust announced his intention of attending the G. A. R. national reunion which will be held in Gettysburg. Faust stated that he would spend some time in visiting points of interest in the east before returning to Santa Ana.

Joint graduation exercises for all eighth grade classes in Santa Ana were held at the First Methodist church with 124 students, the largest eighth grade class in Santa Ana's history, graduating.

The county school board recommended to the state board of education that the diploma be given Miss Ethel Biggs of Orange, Miss Rea Elliott of Fullerton, Mrs. Anna Provost of Santa Ana, and Miss Anna Walden of Anaheim.

Applications of Attorneys Walter Eden and Leonard Evans for membership in the Orange County Bar association were granted.

Miss Cora McClintock, deputy county superintendent of schools, returned to Santa Ana from a two months' trip into Alaska.

Eddie McGaffey, a member of the Santa Ana high school basketball team, was awarded a sweater by the boys of the senior class who had offered it to the player making the most home runs during the season.

Ralph Lowry, president of the senior class at Santa Ana high school, presided over class day exercises. Principal E. H. McMath and Superintendent of City Schools J. A. Cranston, gave short talks.

### THE INFINITE DIVERSITY OF AMERICAN CITY PROBLEMS

When we get in the family fly-wheel and start out for a tour and pass through cities and villages we soon find that almost every one of them has a different idea about traffic, and sometimes the idea is so very different that we make up our minds to take another route next time we take a trip.

Traffic problems may be the same everywhere, but Mr. Herbert Hoover and his national conferences have not yet persuaded the different cities to adopt a uniform set of traffic regulations. In every city and town there is something different to be learned. No two of them are exactly alike.

Similar as may be the basic problems of the municipalities of this country, yet in detail every problem in every city and town presents a different aspect and is solved or postponed, or given up as hopeless, as its fate may be decided by millions of men and women to no two of whom is the appearance of any problem the same.

First of all there is the diversity that grows out of our national habit of permitting each city to go its own way, as if it were the first and only city in the country. When our national comity of federal and state government was fixed in the Federal Constitution the idea of the modern American city could not of course, have entered the human mind. Urban life was not within the view of those great men, The Fathers.

Now, in every other country in the world that may claim the title of "civilized" there is some national governmental agency that controls to some degree the course of municipal government; at the least, as in England, gathering complete statistics and making available to all the common experience of each city, and establishing certain minimum standards of municipal service; at the most, as in Italy, controlling directly the very details of municipal administration. We have nothing of the sort in America, and under our federalized system such a national agency is unthinkable.

Instead we have forty-eight different systems of municipal government under the varying laws of the States, to say nothing of the District of Columbia, the territories and possessions. The states have at least forty-eight different schemes of co-relating city government with the state government or with county administration, and since in the states there is no uniform system of municipal legislation, this forty-eight is multiplied and re-multiplied.

In no state is there an absolutely uniform system of city government. In the whole country there are four general types of city government: (1) The town meeting, the primitive New England flower of pure democracy, tending with increasing population to vest more power in the selectmen and being adopted by new cities is concerned, gave way to (4) The Council-Manager form, in which the people elect a legislative body which in turn employs a trained executive to perform the administrative duties while the Council retains the control of policy, the newest and thus far a reasonably successful effort to solve certain municipal difficulties inherent in

the form of municipal government in America. Yet so various are the state laws, the individual city charters, the relations of city to county; so complex are the factors presented by differences in numbers of inhabitants, in character of population in type of business or industry, in topographical, geographical and climatic conditions, that no government, even if it be of the same general title and type, is organized in one city just as it is in another.

Every one is different, each from the other, in the detailed aspect of its organization, yet each dealing essentially with the same problems and certainly each could learn from the experiences of every other.

The difficulty is that the diversity that grows out of our national habit of permitting each city to go its own way, as if it were the first and only city in the country, when our national comity of federal and state government was fixed in the Federal Constitution the idea of the modern American city could not of course, have entered the human mind.
